Everybody Sees It!

That's Why Every Location Owner Will Want a WURLITZER

Wurlitzer's *Sign of the Musical Note* is everywhere . . . on billboards . . . in national magazine ads . . . on doors, windows, counters and back bars of thousands of Wurlitzer locations.

Everywhere it beckons people to come and have fun playing Wurlitzer Music. And, everywhere people are doing it. Wurlitzer location owners report increased patronage, greater profits. Non-Wurlitzer location owners are awake to what they're missing. They want Wurlitzer Music, too.

Clear across the nation, Wurlitzer Factory-Approved Music Merchants are feeling the greatest demand of all time for Wurlitzer Music. The Rudolph Wurlitzer* Company, North Tonawanda, N. Y.

Now's the Time to Buy

By Bill Gersh

After all the long months of the war and the subsequent entrance of the post-war period, coinmen at last see before them the beginning of what appears to be the first cracks in the prices of used machines.

This, according to statements made time and time again by many coinmen in the industry, is something all have awaited.

Now that it is here, few seem to know what to do about it.

It was well known, and completely expected by all in the industry, that the time would arrive when there would, of economic necessity, arise an entirely new price field. This is but the beginning of the readjustment period of which this publication wrote some many weeks ago. It should, certainly, be no surprise to the trade.

Now's the time for the intelligent operator to buy.

This is the time to plug up every open location in his territory while the prices of used machines are dropping. Now, while he can get them reasonably, he should arrange to place a machine in every open location so that he will forestall the entrance of too much new blood competition against him.

Not only should he plug up these holes, but he should see to it that every location he takes on is signed to a contract of at least two or three years duration, so that he can depend on that location remaining his for at least this period of time. And, furthermore, he should place his equipment in the spot on a 70%-30% commission basis —or any other basis which is most suitable to the peculiarities of his own territory—but a commission basis which will assure him a decent profit on his investment.

This he should do NOW—while he can. There is no doubt that after some dropping down— used equipment will level off in price and will go up to a new basic mark —at which it will probably remain for sometime to come.

There are a great many reasons being advanced for the general slump now current. Collections are off all over the country

What is now being felt, leading economists state, is the result (the backwash) of the many major strikes, and the loss of savings and wages which these strikes caused the average working man.

The sudden dropping of the OPA and its weak return, which has been ballyhooed as sure to start a period of inflation and this, too, has caused many to watch their ready cash so as not to be caught short.

The puzzling lack of production and the many shortages have worried a great many people and they have adopted an extremely careful and cautious attitude.

The fact that new machines were expected to roll off coin machine production lines and haven't done so—in any great numbers. This has upset a great many plans of leading coinmen thruout the nation and has caused them to wonder about the future.

Many coinmen have spread themselves out very, very thin from a financial standpoint because of many outside investments and advance deposits made to obtain equipment. They are now drawing into themselves and becoming very cautious about further purchases.

This is, therefore, the time for the intelligent operators to buy—to cover themselves—to make sure that every location they want in their territories will be theirs.

But, even most important, is the fact that this short slump period has definitely demonstrated to the members of this industry that unless their businesses are economically sound they will lose in every case.

Coinmen must arrange for a better commission basis to offset such slumps should they again arise in the future and to assure themselves a decent profit on their investment—come good times or bad times.

NEW PRICES FOR USED MACHINES BY YEAR'S END

Ops Now Able to Obtain Machines at Reasonable Prices to Cover All Open Locations in Their Territories

NEW YORK — Predictions are now flying about that there will be an entirely new price base for used machines by the year's end.

This prediction was made some months ago by *The Cash Box* but became most apparent these past few weeks as the marget began to show wider and wider cracks.

The situation has boiled itself down to a rush for the better used machines with a great many coinmen attempting to buy whatever they can at this time to fill up all open locations in their territories.

"Furthermore", as one noted operator wrote *The Cash Box,* "this is the chance that many of us old-timers have been waiting for, to get the machines we need into all the spots we want in our area before the new blood can come in and compete with us.

"There just isn't going to be too many new machines in our estimation for sometime to come as yet and we can get started in these spots with used equipment to keep us going at good pace until we get new equipment again."

This attitude on the part of many noted coinmen is sure to once again create a good buying rush and machines will again be transferred from one point to another thruout the nation—probably once again ending up in the rural centers where a great many machines are needed at this time.

Most coinmen believe, tho, that the new price base which will come into effect at this time and will definitely establish itself by the year's end will not remain permanent by any means.

They feel that prices will continue to go down for a short time and will then level off and come back to a high point in keeping with the production of new equipment.

As one coinman puts it, "If there is a big volume production of new equipment then used machines will continue to go down. But, if the volume is no larger than it is at this time, then prices are going back up again and this time, I believe, they will stay up for some many months to come until all the industry is sure that new machines are going to roll off the factory production lines like they used to before the war."

In the main, the majority of coinmen are more or less happy over the break in the present used machines market. They feel this is the time to buy whatever they will require and to take advantage of a great many locations they have been looking at for sometime now.

All agree that the drop in collections is only temporary and that this will come back in the Fall. "But", say coin machine leaders, "this drop was a good lesson to the average operator. It convinced him that he must go to a better commission basis or he will not be able to exist when the new machines are being shipped into the trade in large numbers."

"It's impossible", one of these men says, "to work on the old 50%/50% basis with machines costing what they do today and also with overhead up the way it now is.

"It requires at least 50% of the take for operational expenses. No operator, even if he is averaging a $20 gross on his machines, can expect to amortize his equipment and continue in business on the basis of a $5 per week net. It can't be done.

"The operators who will now change to a better commission basis, while they can, will be the operators who will remain in business in the years yet to come when many changes are sure to come about in this industry."

What is more important, therefore, to every coin machine operator is the fact that used machine prices are cracking and that, as they go lower, this gives the operator the opportunity to place equipment in open locations on a new and better commission basis and to thereby protect himself from newcomer competition as well as assure his livelihood for the years yet to come.

SPEED UP PLAY

Cut Commission to 70%-30% Game Ops Agree

NEW YORK — *The Cash Box* suggestion, made sometime ago, that the amusement machine operators, to survive the high priced equipment and greater overhead expense, must get more money from their collections —by speeding up the play of their machines so that the differential which the machine earns, against 30% commission which should be paid to the location owner, will give the amusement machine op the one and only "out" he has at this time—has taken hold everywhere in the nation from reports received by this publication.

Amusement machine ops agree that they must quickly change their present 50%/50% commission basis to be able to overcome the cash needed to pay for the pinballs, bowling games, arcade equipment and other types of machines (with the possible exception of one-balls, consoles and slots) and at the same time be able to satisfy their location owners with practically as much as they ever previously earned from the machines in their spots.

The life of the average amusement machine is so short that the operator cannot base himself on any long period trade-in valuation for his equipment. He must work against time to be able to receive the highest possible trade-in value for his machine and yet, if he wants to show a profit, be able to amortize the cost of the machine within that period so that whatever the trade-in comes to can be construed as actual profit.

For example, prior to the war, the life span of an average pin game was only three months. With present prices of pin games over $300 — this means that the operator must obtain enough from the three month's collections to gross off the cost of the machine. And since the average pin game op claims that his operational expense is around 40% these days—this means that the differential must be made up in what he will receive as trade-in value if he is to show any profit at all.

Therefore he must cut his commission to 70%-30% so that he can get more from the gross collections than he is now receiving. But, before he can cut the profits down to the location owner, he must make sure that he can return practically as much as the location formerly averaged from the machine to retain sufficient interest in his equipment.

To do this he must speed up the play. For example, the average pin game player will accept the first 3 balls for 5c. If he comes out with a winning score on the first three balls —he can still play the next 2 for 5c more—and come thru with a much better score. If, in turn, he sees that he has no chance for a winning score with the first 3 balls at 5c—he can stop right there and start a new game —or, likewise, if he still believes that there is a chance he may come thru with a winner—he can continue.

The operator, on this basis of 10c per play, tho starting out with a 5c per play action, will be getting 50% more from the machine (provided play continues along the same basis) and will be able to cut down on his commission to the storekeeper so that, in the average, the location will be getting practically the same at 30% as he used to get at 50%.

The operator will be earning more in every way. He will be taking in more money, because of speeded play action, and will be paying less so that he has all the advantage of amortizing his equipment in its short life span and coming out ahead with clean profit on the trade-in valuation of the machine itself.

The trade is therefore all for *The Cash Box* suggestion that play be speeded up—the first 3 balls for 5c on pin games; the first 5 balls for 5c (instead of 9 balls for 5c) on bowling games, etc., down the line — with the location cut down to the new commission basis of 70% to the operator and 30% to the storekeeper.

SPEED UP PLAY

Cut Commission to 20%-30% Game Ops Agree

BIGGEST TURNOVER FEARED

Ops Urged to Immediately Set Up Better Commish Basis to Save Themselves

NEW YORK — Samuel (Curley) Robinson, managing director of AOLAC (Associated Operators of Los Angeles County, Inc.) signaled the first warning in the fact that he could foresee a tremendous turnover in operators unless they did something immediately to cure the present situation.

He pointed to the fact that Bradstreet & Dun had predicted there would be a 62% turnover in general business. This, Robinson, explained, would be mild in comparison to what the percentage of turnover would be in the coin machine industry if the present commission arrangements and other poor business methods are continued by the operators.

For the past five years there has been some turnover here and there thruout the nation. At one time, during the war period, it seemed that all the small operators were going out of the industry and that others were gradually assimilating their routes. But, in the main, this turnover wasn't as large as could be expected during a war period. In fact, in many parts of the country, there was very little turnover to speak of—as for example—AOLAC's books show practically no turnover at all.

Yet, with collections in a slump and with many ops stubborn enough not to heed the warning signs which have appeared time and time again and are now appearing with even greater regularity, there is sure to be a terrific turnover of operators throughout the nation unless better commission arrangements are made by the greater majority of operators thruout the country.

It is indeed pleasant to hear from leading operators' organizations that they have voted a 75%/25% commission basis for all members. Others have adopted the plan of 1% of the gross installation cost as "front money" and the balance on a 70%/30% or 50%/50% basis. It is also pleasing to hear from ops who are obtaining a $15 per week flat guarantee from their locations. Or even from those who have jumped their play to 10c, 2 for 15c or 3 for 25c.

But, these are not the average operators. The average op seems to think he can continue on his present 50%/50% commission basis and still survive the higher cost of equipment, tremendously increased overhead and the many extra miscellaneous expenses with which he is confronted these days.

The one and only answer for those coin machine operators who want to remain in this business—and want to stay in it on a profitable basis today and for tomorrow— is to immediately change to a better and more profitable commission basis.

These are the suggestions which have been made by various coin leaders: 1) 70%-30% commission basis; 2) 1% of the total installation cost as "front money" and the balance on a 50%/50% or 70%/30% basis; 3) $15 guarantee, the balance to be divided on a 50%/50% basis; 4) "Front money", either $5 or $8 or $10 per machine and the balance on 50%/50% or 70%/30%; 5) 75%-25% commission basis; 6) 10c per play, 2 for 15c or 3 for 25c and the commission to be either 50%/50% or 70%/30%; or any other basis which the operator can work out for himself to fit the conditions and peculiarities of his own territory.

And, in addition, to sign each location to at least a two year location agreement contract.

BIGGEST TURNOVER FEARED

Ops Urged to Immediately Set Up Better Commish Basis to Serve Themselves

PRESENT SLUMP IS FEAR NOW'S THE TIME TO STIMULATE FAITH

NEW YORK—The slump which seems to have taken hold of the industry is not actually a slump at all.

There is no business in the nation which is not, at this time, in the throes of readjustment and, therefore, suffering.

But, those who continue on the theory that this is, more or less, the beginning of the end — are simply afraid.

There is no reason to sell this industry short. There is no reason to fear the future.

This nation (and this industry) have been thru too many harrowing experiences to allow a period of indecision (such as this is) to throw a blanket of fear over its future.

People are naturally upset. They can't see into the future. The major strikes have hurt deep into the pocketbooks of labor. The sudden demise of OPA and its current indecisive and weak return has also affected the average person.

The further fact that certain economists foresee the possibilities of inflation has also had its effect on many.

This is fear. This is loss of faith. Loss of faith is this industry and the great future it has before it.

This is one business which has progressed during depression, as well as during boom times.

During the depression years in the early thirties — this industry saw its first real growth.

During the booming wartime years it saw its first big financial base grow up.

Therefore, from every standpoint, whether it's a depression or a boom which the country is heading for — this business will not suffer.

There should be no fear in the hearts and minds of the men who comprise this industry.

There should only be courage, intelligence, optimism and most of all — FAITH.

Have the courage of your convictions. Intelligently adjust your business to the times. Continue optimistic amid all people. Have FAITH.

The men who have faith will lead this industry to ever greater achievements. These men will continue on now with all zest and vigor to help bring those achievements about as soon as possible.

RECORD REVIEWS

By Ralph Emmett OF "THE CASH BOX"

"It's A Wonderful Night"
"More Than You Know"
Ray Eberle
(Apollo 1014)

● For a fair romantic ballad keyed up to keep the customers awake, this offering by Ray Eberle called "It's A Wonderful Night" is adequate. Ray has a pleasant voice, and the musical support he gets from the Wilson Sawyer ork is solid enough. On the backing, Ray does "More Than You Know," in his own familiar style, and what the musical arrangement lacks on this familiar romantic standard, Ray tries to make up with heavy vocal effort. Maybe he tries too soon and maybe he tries too hard, because, all in all, lots better has been heard.

"Missouri"
"Get Yourself A Red Head"
Hank Penny
(King 540)

● "Missouri" is a song intended to stir nostalgic memories in the hearts of those who have wandered away from their Missouri home, and if the wanderer likes his nickel's worth of melody off the corn cob, this waxing is for him. Featuring lots of guitar and offered vocally by the cracker barrel voice of Hank Penny, this waxing should go well wherever a hill billy platter is a drawing card. Flipped, Hank serves up "Get Yourself A Red Head," a cute novelty tuned up for his style. No, Hank's no Harry James, but as an artist who delivers competent hillbilly to the right locations, Hank's okay. And so is this platter.

"Blue Skies"
"Without You"
Kaye Brothers Orchestra
(Stork 1014)

● The top drum work of Sid Kaye shines thru this hopped up version of the oldie, "Blue Skies," and as has been contended before on these pages, the customers will pay for a solid drummerman. Done completely as an instrumental by the still-to-be heard-from Kaye Brothers Orchestra, this disk serves well as an indication of the coming of a neatly novel musical combo. They're worth buying. On the flip, the Kaye family leads the way on the romantic, blue "Without You," done up vocally by another member of the fold, Lenny Kaye. His performance is pleasant and workmanlike. This is a sound platter for locations where they like 'em both romantic and with plenty of jump.

"You Can't Break The Chains of Love"
"Moon Over Montana"
Tex Russell and His Hollywood Cowboys
(Aladdin 506)

● Lament is the word for "You Can't Break The Chains Of Love" and let the tears fall where they may. Done vocally by Coby Jones, she really does it up with a broken heart, but if the customers want to hear a Western caroled by a gal, this may be their meat. "Moon Over Montana" is something on the novel side. It starts out to be a boots and saddler, runs on as a semi bolero, and winds up as in semi-stomp rhythm. Doing the lyrics for this combination is Dude Jackson, who has good intentions. The instrumental support is handled by Tex Russell's Hollywood Cowboys. Maybe that explains everything.

DISK O'THE WEEK
"Cherokee"
"To Each His Own"
Opie Cates Orchestra
(4 Star 1131)

OPIE CATES

● At the top of this week's heap o' wax is this platter contributed by the Opie Cates orchestra featuring a pair of top tunes, "Cherokee" and "To Each His Own." Smooth is the word for the Cates aggregation, and smoothly they deliver, whether it's the light stomp of "Cherokee" or the romantic ballad that is "To Each." Actually, of course, the "To Each" side is the headliner on the disk. The spot the tune holds on the national poll effects that. What's more, the vocal department, handled quite capably by Trudy Erwin, adds to its weight. But "Cherokee", performed completely as an instrumental is worthwhile in its own right. And as a disk that'll stand out in any kind of location and actually win coinage, you won't go wrong with this one.

"Walkin' Away With My Heart"
"Let's Play House"
Bill McCune and Orchestra
(Apollo 1013)

● The Bill McCune ork is our pick as a dependable ork to do one's dancing by, and on this waxing of "Walkin' Away With My Heart," they carry on that opinion. The number itself is adequate as a romantic ballad, the same can be said for Marshall Young's efforts on the vocal. But the combo do come up with really danceable rhythm, and for that much the platter is worthy. On the backing, the crew do the novelty, "Let's Play House." On "Let's Play," Johnny Olsen and Betty Buckner trade the lyrics and they perform pleasantly. The tempo for the side is evenly measured, mild and stirs little enthusiasm, but for a disk to place where they want 'em unobtrusive, you may like this one.

"Stardust"
"Where or When"
Larry Clinton Orchestra
(Cosmo 481)

● Larry Clinton is our maestro when it comes to giving a tune class and polish, and on this platter presenting the two well known standards, "Stardust" and "Where or When," he does just that. They're exactly right if a dance floor is available at your locations, and, if not, they'll score simply as music worth listening to. On the "Stardust" side, Larry's quartet does the vocal stint and they do it with grace, exactly in keeping to the maestro's arrangements. "Where or When" is all instrumental, and Larry's sax is heard far and wide. A worthy disk with which to compliment your route.

"If You Ever Go Over To Ireland"
"Cottage With The Horseshoe O'er The Door"
Stephen "Pat" McHugh and Mary Carton
(Celtic 1010)

● "If You Ever Go Over To Ireland" is one of those platters that'll draw heavy coinage from the lads of Erin no matter who it's done by. Fortunately, Pat McHugh and Mary Carton do well by it. It's spirited, it's gay, and it sounds authentic. The backing, "Cottage With The Horseshoe," is not up to the headliner. Somewhere between the two, Pat's brogue appears to have taken leave of the wax, and that, in turn, removes much of the charm "Cottage" might have had. The Mickey Carton ork is, as usual, good, and they more than make up for whatever the side lacks.

"She Lost Her Re-Bop"
"Give It Up"
Annisteen Allen and Home Town Boys
(Queen 4142)

● "Hot" is the word for this offering called "She Lost Her Re Bop." Lots of voices join in to lift it into the hit class but that of Annisteen Allen is the one we liked best. She's really good, and gets lots of help from Bull Moose Jackson to real advantage. Were it not for the fact that this tune is out of the "Hey! Ba-Ba-Re-Bop" family, this platter might cause a sensation. As it is, it's still top juke box fare, with lots of rhythm, lots of stomp, lots of flash. And the flip, "Give It Up" is just as good. If you have any boxes in Harlem-type locations, give this platter a listening.

EXCLUSIVE TO "THE CASH BOX"

RECORD REVIEWS

By DAVE QUIRK
RECORD REVIEW EDITOR OF "THE CASH BOX"

"Walkin' The Boogie"
"Oo-We Babe"
Deacon Lem Johnson
(Queen 4125)

● The boogie fans will be sure to support this waving of an eight-to-the bar number played and sung in the old boogie woogie style. Deacon Lem Johnson has the vocal equipment to put over this kind of a song and the boys in the background do a pretty good job instrumentally speaking. There are a couple of good solo inserts which serve as embroidery on the familiar boogie pattern, and the final blend with the whole outfit is a smooth one. "Oo-We Babe" on the backing is really a deep shade of blue. Deacon again offers the vocal and the band is liberal with their improvisation. Both sides will go great guns in the race spots.

"She Won't Be My Baby No More"
"Dreamy Eyes"
Carlisle Brothers
(King 541)

● The Carlisle Brothers team up on "She Won't Be my Baby No More" and come out with a jazzed up cowboy tune. It isn't often that you hear blues and a touch of the West in the same song, but it's present on this one. There's a good, strong beat in the instrumental part that rates some attention. The backing, "Dreamy Eyes," is a typical Western torch tune — both the vocal and instrumental performances can be classified as such. Recommended as good material for locales where they're partial to this kind of music.

"This Is Always"
"I've Never Forgotten"
Harry James and His Orchestra
(Columbia 37052)

● A top band, a sweet trumpet, and a smooth vocal is a triple threat that's hard to beat on any disk, and that's just the combination offered on "This Is Always." Mr. James cooled off his horn just enough so that his solo fling is definitely on the mellow side. The band backs him up in a neat fashion and then comes to the front for some instrumental treats of their own. Finally, Buddy Di Vito gets the floor to croon the lyrics. It's good stuff, all right. The flipover, "I've Never Forgotten," follows pretty much the same trend with Ginnie Powell knocking off the vocal honors. Records such as this are a boon to cash boxes everywhere.

"To Each His Own"
"Holiday For Strings"
The Modernaires with Paula Kelly
(Columbia 37063)

● Dreams are sure to flourish during a playing of "To Each His Own". The tempo is slow, the mood romantic, and the harmony close. The Modernaires with Paula Kelly give it a good treatment, and the same can be said without reservations for the orchestra with Mannie Klein at the helm. Their rendition of "Holiday For Strings" on the reverse side is a bit different from most of the other recordings of this swell tune. It's gotten so you expect an instrumental platter with violin pizzicato and all, but the Modernaires pull a switch and give us the seldom heard lyrics. The result is good and should revive interest in the song itself. Well worth a listen.

SLEEPER OF THE WEEK

"That Little Dream Got Nowhere"
Dinah Shore
(Columbia 37050)

DINAH SHORE

● It's hard to find new superlatives to describe Dinah Shore and her wonderful musical style since most of the them have been used long ago. She always does a magnificent job on a blues number, but give her a good sentimental tune and you'll need a truck to haul away the nickels. "That Little Dream Got Nowhere" is made to order for Dinah. She has a very personal way of singing and on this one her voice wends its way out of the loud speaker and curls right around your heart. Her phrasing and vocal shading leave little to be desired. The backing is "Two Silhouettes" and it's more of the same. The orchestra under the direction of Meredith Willson handles the instrumental angle very well. Both sides will be hits any place, so you operators certainly won't go wrong on this one.

"Lover's Leap"
"High On A Windy Trumpet"
Les Brown and His Orchestra
(Columbia 37061)

● The Les Brown aggregation is really a great musical unit, and they uphold that reputation on this latest release. "Lover's Leap" is a swingy but subdued number perfect for dancing and equally suitable for listening. Les Brown has outstanding soloists and Ted Nash breaks into a good sax solo that packs plenty of punch even though it's toned down. Then comes a piano insert with a background by just the rhythm section followed by the full orchestra. The flipover, "High On A Windy Trumpet," offers another smattering of the Nash sax but features superb trumpet work by Jimmy Zito. His tone has a Harry James quality, but he doesn't have to take a back seat to anyone. Good double feature platter that will fit in most anywhere.

"I Can Tell Just As Plain"
"I'm All Through Trusting You"
Jimmy Widener
(King 542)

● "I Can Tell Just As Plain" is a blue tune right out of the cellar. Jimmy Widener is the featured artist and he does right well on the boogie vocal. The band is behind him with a solid boogie beat done in a slow tempo. There is some good solo work here too. There's a change of both pace and style on the backing which is entitled "I'm All Through Trusting You." This time we're presented with a western ballad running along the usual plaintive lines. The band steps it up a bit after the vocal chorus and gives with some swingy guitar and piano attachments to deviate from the customary cowboy pattern. Place it right and it'll click.

"You Call It Madness"
"Oh But I Do"
The King Cole Trio
(Capitol 274)

● King Cole Trio fans, and by now their numbers are legion, have another treat in store for them with a double smash waxing of a ballad and a rhythm song. "You Call It Madness" is the Trio's version of one of Russ Columbo's hits and the way they do it will make the customers beg for more. King Cole really breathes life into the vocal. His husky, restrained voice is well known and you're always sure of a good performance. The backing is much peppier and all three of the lads contribute to the vocal. "Oh But I Do" has plenty of beat. The record is a cinch to hit paydirt.

"The Lamplighter"
"Tempo's Boogie"
Lionel Hampton and His Orchestra
(Decca 18910)

● Lionel Hampton is a real stomp artist and here he gives us two waxings of solid jive that will send all the swing addicts flying to the nearest juke box. "The Lamplighter" starts out with a string bass introduction, goes into a brief vibe solo, and then the band takes it away and those boys really rock. "Tempo's Boogie" is a Hampton Original and it's a lot like the reverse side—but still good. There's plenty of boogie beat without the whole thing becoming too frenzied. Skip this one for the quiet spots but it'll hit the jackpot in every other location.

What's Hot ON THE RECORDS

THE TOP TEN JUKE BOX TUNES THROUGHOUT THE NATION

(for the Week of August 13, 1938)

BYRDE'S EYEVIEW 'ROUND THE WAX CIRCLE

by Byrde Gore

Late reports have it that a deal has been clinched between Harry Bank, prexy at Cosmo Records and Al Green, chieftain of the National label, whereby National's disks will be wholesaled via Cosmo's distributing network. Meanwhile, those in the know expect even more encompassing deals to take place between the two . . . Lots of Louis Prima's music op pals are holding their heads in their hands. With Louis' friends in the trade anxious to get his platters into prominent place on the boxes, along comes word that his latest offering "Vout Cowboy" (reported to be top juke box material), will list at a buck five per pressing. And his pals wonder how many new music op friends he can make with that price line to cross.

* * *

Newcomer to the platter industry is Regal Record Company, Inc., our in Hollywood. Their first effort will feature warbler Tony Farrell . . . Sensational success of Apollo's waxing by the Luis Russell ork on "The Very Thought Of You" has had the staff in a whirl trying to appease the terrific demand. Incidentally, and just as a reminder, Ralph Emmett picked the platter as his "Disk O' The Week" several issues ago . . . Biggest promotion for a waxing in many a month is being sponsored by Cosmo Records. The big blast is for "Banana Boat", waxed by the Hal McIntyre aggregation.

* * *

Wayne Varnum, press chiefs at Columbia Records, talked with *The Cash Box* this past week about a plan that may well set a new national pattern in jukes thruout the land. Mum is the word on it for the time being, however. Wayne will probably be remembered by scores of music ops who attended CMI conventions in years past. He did lots of hand shaking for the firm . . . A glance at forthcoming releases planned by Decca suggests heavy emphasis on their "Personality" series, with a six bits list . . . Lou Suritz, Majestic Records sales chief, is currently wooing music ops thru the South.

* * *

Does Signature Records like to do business with the music op? It seems awfully difficult to find out . . . Ivin Ballen, Ballen Record Company, announces that his label, 20th Century Records, is now supplying ops with printed title strips with their platters . . . Oliver Sabin, Musicraft veepee in charge of sales, enroute to the West Coast. Masterminds of the org have been in big pow-wow for many weeks past as to how they can offer as much to music ops as is offered retailers by all major waxeries. Announcements are promised directly after Labor Day. Well, the music op has waited these many years past for that kind of break. We'll sweat it out till then.

'THIS IS ALWAYS'

With Paul Weston and His Orchestra

A big ballad from the 20th CENTURY FOX PICTURE, "Three Little Girls In Blue," by writers of "The More I See You" . . . Jo Stafford handles lyrics with rare rhythm styling . . . and luxurious support from Paul Weston's Orchestra.

'I'LL BE WITH YOU IN APPLE BLOSSOM TIME'

With
NAT KING COLE
Piano
RAY LINN — Trumpet
HERBIE HAYMER — Tenor Saxophone
Orchestra Conducted by PAUL WESTON

An unbeatable combination: a reliable tune, Jo Stafford's vivacious vocal, King Cole at the keyboard, plus other great solo musicians.

CAP. 277*

2 Standouts by
SAM DONAHUE
and His ORCHESTRA

'JUST THE OTHER DAY'

Donahue's sensational band hits its stride...Mynell Allen turns in her greatest vocal . . . Donahue's sax is tops!

'I LEFT MY HEART IN MISSISSIPPI'

A new singing star, Bill Lockwood, is featured in a knockout rhythm ballad . . . Bill is predicted as the top band vocalist of the nation.

WHAT CAN THE RECORD MFRS. DO FOR YOU?

NEW YORK—With the availability of production facilities fast closing with the still increasing demand for phono disks, record manufacturers are again eyeing the juke box market as the principal medium for publicizing their disks as well, as a heavy contributor to platter sales.

Accordingly, many manufacturers have come to *The Cash Box* in recent weeks in an effort to reach music ops and sound out their opinions on what can be done to aid the automatic phono industry and, at the same time, increase their sales to coinmen.

These manufacturers are seeking closer alliance with the operator. They are fully aware that it can't be done merely by words of good will. They claim to be aware that the op has many justifiable gripes, and they want to hear them.

Air your suggestions — *and complaints.* If you want to tell it to a single manufacturer, tell it that way. If you want them all to hear it, be assured that they will.

The space on the right is reserved for YOU.

Use it, and be assured *The Cash Box* will take it from there!

This is YOUR OPPORTUNITY to bring home to the record manufacturers exactly what you think they ought to do to IMPROVE relations with YOU! YOUR SUGGESTIONS MAY BE THE ANSWER!!

Cleveland Ops Pick 'Five Minutes More'

CLEVELAND, O. — "Five Minutes More" has been selected as the song to be promoted as the "Hit Tune of the Month" for September, it was announced this past week by officials of the Cleveland Phonograph Merchants' Association.

The "Hit Tune of the Month" idea was resumed this month by the Association after a four year lay-off due to the record shortage during the war years. The Hit Tune for August is "Doin' What Comes Natur'lly" and is currently being featured on the more than 3000 music boxes in operation in the Cleveland area.

Each month's top tune is given considerable promotion, including newspaper and radio advertising, colored title strips for the boxes, and numerous display cards, as well as other forms of promotion. Record manufacturers are invited to contribute to the promotional campaign. Any extra revenue obtained from this source is spent for additional newspaper advertising.

SEE RISE IN DEMAND FOR FOLK MUSIC DISKS

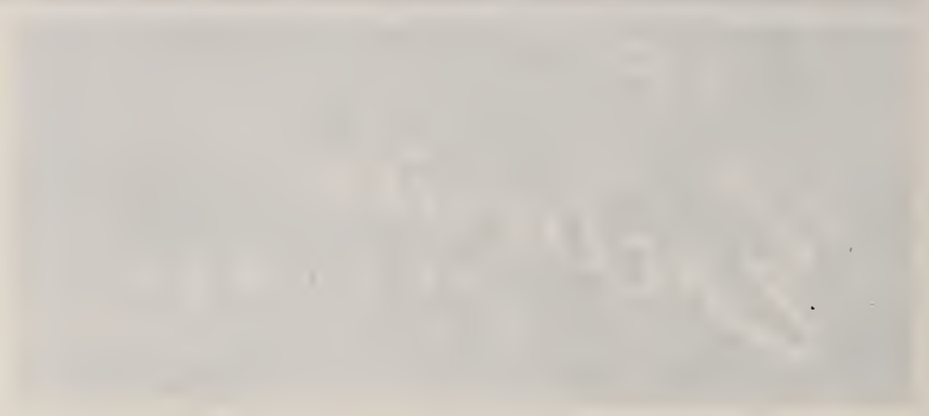
NEW YORK—Music experts here are predicting a sensational rise in the use of folk music on juke boxes and in the sale of such records in retail stores. In support of their prediction they point to increasing interest in square dances, folk music concerts, etc.

In this city, music ops told *The Cash Box*, there has been a noticeable increase in the demand for "hillbilly" waxings thru the past few years. Government sponsored activities are credited.

"To Each His Own" No. 1

NEW YORK—During this past week, the meteoric rise of "To Each His Own" was climaxed when platters of the melody were worn into the No. 1 spot in *The Cash Box* national poll of the ten top tunes as reported by music ops from every section

Indications are that the platter will remain in that position for some time to come, since it is still reported on the rise in many communities where it was late in being introduced.



SPEAK UP

The Record Section was instituted by *The Cash Box* to provide the music operator with information that would reflect increased receipts in his juke boxes.

Accordingly, *The Cash Box* now offers the music op the following features:

Record Reviews: At the present time *The Cash Box* devotes two pages to the review of all new records as they appear on the market. These reviews are written by experts exclusively for the juke box trade, and, rather than discussing the technical merits of the platter, effort is made to inform music op readers how to *merchandise* the platter on the route.

Disc-Hits Box Score: A compilation showing disks currently on the rise or decline. It is printed on a sheet so perforated as to be easily removed and displayed as a chart. Intended as a buying guide for your record requirements.

Nation's Ten Top Tunes: Based on a national poll of music ops thruout the country, *The Cash Box* presents here the top moneymaking tunes of the previous week and the labels and artists under which they are available.

What's Hot On The Records: This feature offers the music op an opportunity to acquaint himself with the top moneymaking disks as they appear in every section of the country. From the reports he can get leads on little publicized records which are scoring top profits and, if his territory caters to the same trade, profit by following the same purchasing track.

Byrde's Eye View: Here is a column which, if closely followed, can do much to acquaint the music op with the latest news of the record industry. News with a direct bearing on the automatic phono trade.

Hot In Harlem: Here's a section which every op with "race locations" on his route should follow. It lists the disks currently in the top ten in Harlem locations—and what nets coinage in Harlem is certain to draw profit in any "race" spot in the nation.

But *The Cash Box* is eager to provide more helpful information to the music operator. We want your suggestions as to how we can improve our service to you, a service intended to net you better receipts. If there is anything you want added — or altered —in this record section, please send your suggestion along today.

C.M.I. BLUE BOOK

FOREWORD Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices as they are quoted for the past week, regardless of how much they may seem to be out of line. Some prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depends on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD The C.M.I. Blue Book should be read as follows: First price listed is lowest price for the week: Second price listed is highest price. Where only one price appears this should be considered lowest price.

IMPORTANT Machines underlined mean these were most active in trading the past week.

CODE Check this code carefully. Become acquainted with each one of the code numbers and what they signify. These code numbers appear in front of the name of each machine.

1 MEANS PRICE WENT UP.

2 MEANS PRICE WENT DOWN.

3 MEANS MACHINE JUST ADDED TO LIST.

4 MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK.

5 MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.

6 MEANS NO PRICES QUOTED FOR PAST TWO WEEKS.

7 MEANS NO PRICES QUOTED FOR PAST THREE WEEKS.

XX MEANS NO PRICES QUOTED FOR MANY WEEKS — PRICE SHOWN IS LAST KNOWN QUOTATION.

MEASURED MUSIC SYSTEMS

...A HIT WITH EVERYONE WHEREVER INSTALLED

Personal Music boxes are a success with customers, location owners and music merchants alike. Customers like this *Measured Music** system because it is not blaring, noisy music that dins in their ears. The music is sweet and low. Personal Music boxes are personalized; they can be heard only in the areas of the boxes and nowhere else. Scientific design and construction bring to Personal Music boxes a superb tone quality—soothing, stimulating, inspiring music.

Music merchants and location owners are enthusiastic about the bigger takes from *Measured Music**. Personal Music boxes have set new profit standards for music sales; with units at tables, booths and counter spaces, all boxes operating separately, your profits are multiple.

Personal Music boxes are small; they occupy a tiny space in booths or on counters (only 6¼" high) . . . no floor space required and no interference with table service. A smoothly rounded top and shiny chrome finish, resistant to rust, corrosion or stains, it's jiffy-cleaned in a second with a cloth. Personal Music boxes add to the decor of any location.

HOME OF PERSONAL MUSIC

UNITED MANUFACTURING COMPANY 5737 BROADWAY CHICAGO 40, ILLINOIS

Nat'l Slug Rejectors Introduce New Interchangeable Coin Units

ST. LOUIS, MO. — Interchangeable coin handling units for vending machines, which can be installed on the route by an unskilled service man, in four and a half minutes, are now being manufactured by National Slug Rejectors, Inc. of St. Louis.

Introduction of the National Interchangeables solves the problem operators heretofore encountered: the necessity of taking a machine out of active use for coin handling readjustment whenever prices or tax laws are changed.

The coin handler is designed for single and for dual coin use and is available in seven different arrangements.

The single coin Interchangeables are for 5c, 10c and 25c; and the dual Interchangeables for: 5c & 1c; 5c & 10c; 25c & 10c and 25c & 1c.

Once installed any other Interchangeable may be substituted as desired, and switched around between various machines without loss of operating time in order to make the change-over.

Added benefits of the Interchangeable are apparent to operators who want to change a line of merchandise selling at a different price. There is no loss of time in making the change-over.

The National Interchangeable is also said to open new markets to operators. State lines can be crossed, even though tax laws are different.

Vending machine manufacturers who have reported they will install the Interchangeable as original equipment have stated they expect its time-saving features to help reduce risk of obsolescence in situations where retail marketing and merchandising problems arise for the operator.

Where sufficient space is made available in the machine a "double-duty" installation of the Change-Maker, that National will introduce shortly, will give added use from the Interchangeable handler.

Officials of National report other new devices are soon to be introduced. These include a coin changer, and credit-storing and Actuating devices.

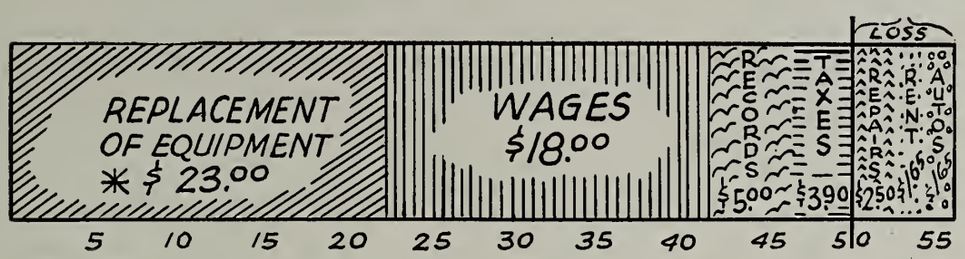
BIG MIDWEST JUKE OP DRAWS CHART TO SHOW TRADE WHY

HERE'S WHY OPERATORS MUST GO TO 70%-30%

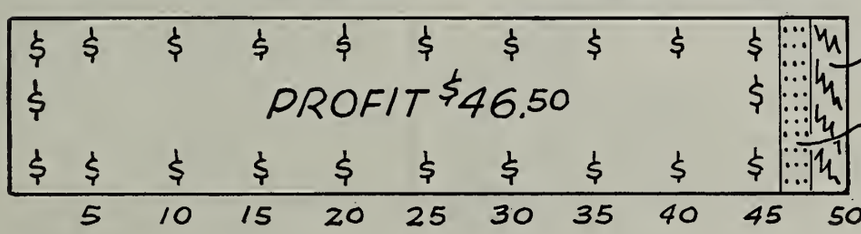
FOR EACH $100 TAKEN IN BY AN AUTOMATIC PHONOGRAPH ON A 50-50 BASIS HERE'S WHERE THE OPERATOR'S $50 GOES.



A LOSS OF $5.80

* Depreciation 33⅓% per annum on top Cash Box figures.

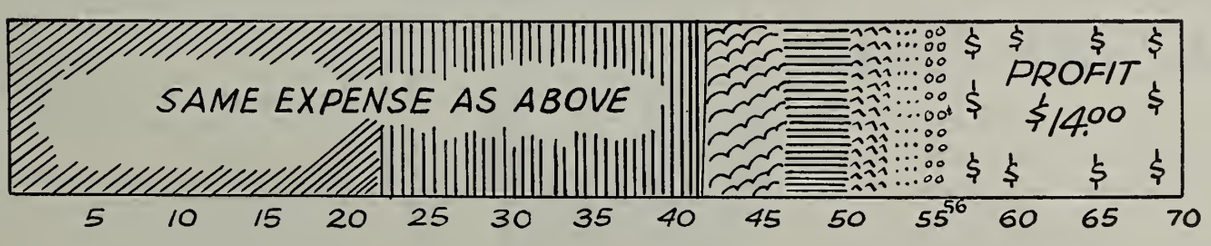
-and HERE'S WHERE THE LOCATIONS $50 GOES.



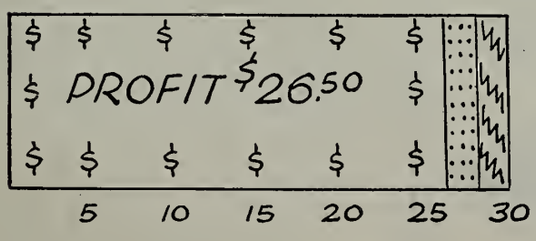
A PROFIT OF $46.50

ON A 70%-30% BASIS IT WOULD LOOK LIKE THIS

OPERATOR'S SHARE



LOCATION'S SHARE



THE PROFIT IS STILL 2 to 1 IN THE LOCATIONS FAVOR STILL NOT A FAIR DEAL.. *BUT*, AT LEAST A STEP IN THE RIGHT DIRECTION.

NOTE: *THESE ARE NOT FICTITIOUS FIGURES THEY ARE TAKEN FROM THE BOOKS OF AN OPERATOR*

NEW YORK—Asking that his firm name not be published, one of the largest juke box operators in the midwest, this past week, sent in a graph-chart which he had drawn himself (and which is reproduced completely here without being touched)

This op advises that his firm called in all other ops in their area and that they could not get them to agree to changing their present commission arrangements to 70%-30%. But, this did not stop him. He has, to make sure that his firm prospers in the music machine business, placed a service charge on each location of $2 per week. This acts the same as "front money". Many ops charge a minimum of $5 per week "front money" and go higher for the better type machines.

He writes, "We have been very much impressed with the efforts of *The Cash Box* to assist the industry

HERE'S WHY OPERATORS MUST GO TO 70%-80%

FOR EASY TUNING IN BY AN AUTOMATIC PHONOGRAPH. ON A 50-50 BASIS HERE'S WHERE THE OPERATORS' 50% GOES.

ON A 70%-30% BASIS IT WOULD LOOK LIKE THIS

N. Y. SUNDAY NEWS FEATURES 2 PAGES ON BIG JUKE BOX USE OF RECORDS

Reports $232,000,000 Spent Each Year in Jukes. Says 1,400,000 Phonos to Buy 24 Records Every 2 Weeks in '47. Claims There is Now One Juke for Every 500 People in U. S. Feature Pic of New Wurlitzer 1015. "Juke Box is Here to Stay", Writer Reports.

NEW YORK—The New York Sunday News, biggest Sunday circulation newspaper in the world, published a two page feature story written by Robert Sylvester of their staff this past Sunday (August 4, 1946) wherein they told all about the juke box business and the fact that the automatic phono was responsible for the phenomenal rise in sales of records.

Quoting such people as Eli Oberstein and many other notables in the record manufacturing field the News stated, "It's almost supernatural!" The writer also says, "The Wizard of Menlo Park, N. J., was being overly conservative for one of the few times in his life. As supernatural as he considered his brainchild, not even he could have predicted that by 1945 that little gadget (the phonograph) would have gathered an industry responsible for the following:

"1. The sale of over 120,000,000 records in a year when materials were virtually unobtainable.

"2. Turning every erstwhile quiet eatery into a poor man's night club.

"3. Inducing otherwise sensible folk to spend 4,640,000,000 nickels—or $232,000,000—in mechanical phonographs.

"4. Earning from $225,000 to $500,000 each in a single year for singers and entertainers who have become record stars.

"5. Fathering no less than 143 separate record manufacturing companies."

The writer explains that all the above figures are for 1945 and that he expects this year's figures to be much higher.

He reports, "Since almost every public bar and eatery has a juke box today, it would be reasonable to assume that there are millions of these contrivances, each playing its set of records from dawn till closing. Actually, there are not more than 400,000 juke boxes in the country.

He offers the following, "Within a few months, there will be more. A lot more. Juke box manufacturers estimate", he reports, "that by 1947 there will be 1,000,000 additional machines in operation. If they could get certain necessary materials — notably wire and slug rejectors—the new boxes would be on the market now."

He goes on to say, "The average juke box contains 24 records." And then adds, "multiply the promised 1,400,000 juke boxes by 24 records every two weeks and you get a rough idea of what kind of a customer the juke box is for the record manufacturers."

He then tells all about Johnny Mercer and Capitol Records, also about Victor's Perry Como, Decca's Bing Crosby, Columbia's Frank Sinatra and all the other stars. He reports that Crosby's "White Christmas" has sold over 2,500,000 records so far and that his "Silent Night" is nearing the 2,000,000 mark.

Pictures of Marlene Dietrich are shown and the fact that she made 144 masters before she was satisfied with one that recorded "See What The Boys In The Back Room Will Have".

This is probably one of the most outstanding double page feature stories on the juke box and the number of records it uses which has ever yet been published. Tho some of the figures presented are a bit high —it does average off the thought that the juke box is today the leading buyer of records and the "sales force" which sells all types of records for home use by popularizing them thru the "show window of the record industry" — the coin operated phono-

THE UNIVERSAL BAR BOX BRACKET

FITS ANY BOX — FITS ANY BAR

• LIGHTWEIGHT • STRONG
• ADJUSTABLE • STREAMLINED

Lightweight aluminum alloy with highly polished finish makes an instant hit with progressive operators.
Strong construction of non-corrosive, non-magnetic metal insures trouble-free and worry-proof installations
Adjustable to any bar or counter. Simple two-way clamp and secondary support makes it possible to install in a matter of minutes. Will not mar or deface any surface to which it is attached. Ideal for use on marble-top fountains.
Streamlined moulded exterior incorporates unique design which enables wires (including 30 conductor cables) to be concealed in the slotted main upright.
Holes, drilled and tapped on upper support, permit easy installation and changes from one make or model box to another moving bracket. An additional feature provides for use as a conventional bracket employing the use of screws.

$7.95 PER PAIR F.O.B. Wichita

Hal McIntyre Autographs in Op's Record Store

MT. VERNON, N. Y.—Enterprising juke box op here who owns the Record Shop took full advantage of Hal McIntyre, Cosmo Record star, visit here and announced to his trade that McIntyre would spend the day autographing his own records

The result was one of the largest crowds this op has ever yet enjoyed with McIntyre records selling like hot cakes.

Hal is reported to have taken it all good naturedly and even posed for pictures with some of his many fans.

He continued autographing records all day long until time to leave for his appearance at a local theatre

According to reports it was very lucky that he left when he did for the Record Shop had run all out of McIntyre records and has promised its many customers that they will again feature a McIntyre day when Hal returns from his current trip.

McIntyre is making arrangements with other juke box ops who own record stores on his trip thruout the country to spend an afternoon or two with them autographing his Cosmo Record releases for buyers.

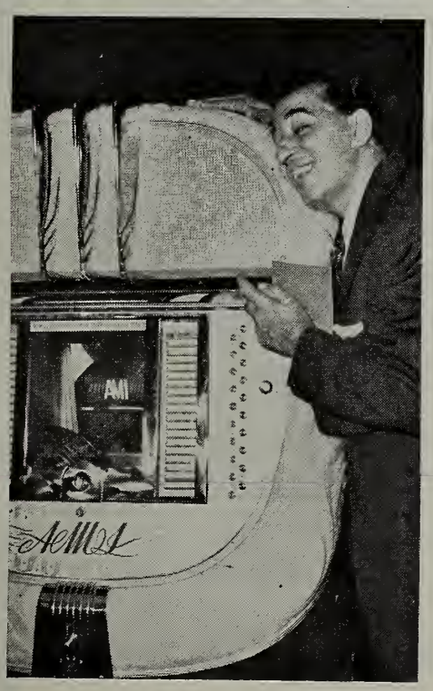
Louis (Da Preem) Prima In Love . . . with Juke



LOS ANGELES—Louis (Da Preem) Prima, Majestic Record star, who visited at M. S. Wolf Distributing Co., here recently while playing this city, reports that, "I'm In Love", and, according to "Da Preem," "I'm in love with juke boxes and the juke box people—because they've been so nice to me."

He says, "Tell the boys to call around. I want to meet them. And I want to tell them how much I appreciate their many kindnesses to me. I want them to know that myself and my entire band are tremendously grateful for all the nice things they've done for us and all the records of ours that they are buying."

In fact, "Da Preem" actually waxes eloquent when he talks about the juke box biz.

Eaton and Wolf Meet Victor Record Stars

CHICAGO — DeWitt (Doc) Eaton, Vice President and General Sales-manager for AMI and M. S. (Bill) Wolf of the M. S. Wolf Distributing Co., this city, get together with some of the leading Victor recording stars who praised the new AMI Model A according to what these men reported.

From left to right: "Doc" Eaton, Bill Wolf, Dennis Day, Jack Fina and Desi Arnaz. Dennis Day, Jack Fina and Desi Arnaz brought along their latest recordings to be played on the new AMI to hear how they sounded on the juke boxes.

All these stars were tremendously enthused over the nice reception that the AMI phono ops are giving them around the nation.

"Doc" Eaton stated, "Our new Model A is considered the ultimate test for any new record release. All the big recording stars seek out the showrooms of AMI distributors to test their new releases."

Big Crowd to Attend Amusement Enterprises New Game Showing

IRVING KAYE

GEORGE PONSER

NEW YORK — George Ponser and Irving Kaye of Amusement Enterprises, Inc., this city, report that they have already received wires, letters and long distance phone calls from various noted distributors, jobbers and operators thruout the country advising them that they are preparing to attend the showing of their three new machines at the Hotel New Yorker here on August 15, 16 and 17 in Parlors "F" and "G".

Among some of the distribs who will be at the showing are: Del Veatch of V-P Distributing Co., St. Louis, Mo.; Frank McNickols of Cleveland, O.; Irv Sandler of Des Moines, Ia.; Milt Cohen of Cincinnati, O.; Irv Blumenfeld of Baltimore, Md.; Al Bergman of Buffalo, N. Y.; as well as many, many others.

"The one feature that everyone will be happy to see", Ponser and Kaye report, "will be what *The Cash Box* and all amusement machine operators are now proposing—that is, speedier play action. "But", they continued, "we want the trade to see just how we arrange for this sort of play action and we feel sure that after they see this they will admit that this feature alone will mean better and faster profits."

The men also stated, "Our scoring features are something that has never before been seen on any machines.

N. J. Music Ops Start Series of Commission Letters to Locations

Tell of Increased Overhead and Other Upped Costs in Start of Campaign to Change Commish Basis to 75% - 25% by Sept. 1

NEWARK, N. J—The Music Guild of America, association of coin operated music machine ops in this state, have started their campaign to get all locations to a minimum 75%-25% commission basis by September 1.

Letters are now being mailed to all locations in this area to acquaint storekeepers with the fact that overhead costs have risen better than 300% in some instances and that, to stay in business and serve the location with good equipment, the latest records and give them efficient repair service days, nights, Sundays and Holidays, the music op must earn more in order to pay union wages to union workers.

The forepart of the letter is devoted to the fact that the worker members of the MGA are unionized under A.F. of L., the International Brotherhood of Electrical Workers.

The letter continues that despite increasing costs of operating their businesses, the music merchants have continued on their former commission basis.

It is believed that the other letters that will follow this one will gradually explain why there must be a change in the present commission schedule and this will probably be followed by the music ops themselves calling around to change the commission to the 75%-25% basis which has been agreed and voted upon by all members of the MGA to be installed as a minimum no later than September 1.

Happy Birthday

PHILADELPHIA, PA. — To I. H. Rothstein, head of Banner Specialty Company, this city and Pittsburgh, Pa., who celebrates his birthday on Thursday, August 15.

Long known as one of the nation's leading distribs, Rothstein heads one of the most progressive organizations in the coin machine industry.

Allied Music Gives Dinner for Tony Pastor

DETROIT, MICH.—Max Lipin, president of Allied Music Sales Co., this city, called in his entire sales staff as well as leading music ops to meet Tony Pastor, one of the Cosmo Record stars, at a dinner given in his honor by Allied.

Pastor is reported to have said, "How can I help it—they've got me surrounded—I've got to 'surrender'."

According to Lipin, "Pastor's Cosmo records are clicking big with the juke box trade in this territory."

Suggests State Take Over Slot Operating

Should Be Put in Town Halls and Income Divided Between City and State

BRATTLEBORO, VT. — An editorial in the local newspaper (Reformer) here suggested this past week that the state of Vermont take over slot machine operation, as it has the liquor stores, and make this a state controlled monoply.

The editorial states, "Slot machines are, of course, illegal but some laws are easier to enact than to enforce. Diligent efforts keep them pretty well cleaned out of resorts for private profit here in Vermont but it is rather difficult for the prosecutors to marshal much support for a campaign against non-profit orders where the income goes to worthy purpose. All of which leads to the idea that the state should take a monopoly on the contraptions just as it does with liquor on the theory that if an evil can't be suppressed it should be operated for public benefit. Slot machines could be put in town halls or somewhere and the income divided between town and state. Perhaps state stores would be a better place as experience shows that machines do well where liquor is sold."

The writer also says, "In any event a surprising number of people would come forward as voluntary tax payers — the town of Brattleboro might easily yield $25,000 a year profit alone—and that would be just so much money in the pocket of the people with will power enough to keep away."

Phono Op Teams Up With Hardware Dealer to Sell His Used Records

By Bert Merrill
Special to The Cash Box

ST. LOUIS, MO. — One phonograph operator who has solved the problem of how to get rid of used records profitably is George Marshall, who operates a string of phonos and pin games thruout the western suburbs of St. Louis.

Conducting his large-scale music business without a store and no point at which to retail used records feasibly, Marshall formerly threw away the accumulation from his phonos as soon as enough were on hand to become a nuisance in his home.

Many, of course, he gave to location owners to take home for their friends to play on their own phonographs, but the majority were simply tossed in the ashpit or, through careless handling, broken in transit.

Naturally, Marshall was aware of the fact that there is a substantial demand for used records almost anywhere — but without sufficient facilities to find customers, he did not feel the undertaking would be worth the effort.

That was the story until a St. Louis hardware dealer, Lloyd T. Smith Hardware Company, in suburban University City, came up with the idea of luring in high school jitterbugs, and the "young trade" with a stock of used records displayed here and there in the store.

The hardware store, incidentally, carries a large sporting goods department with badminton, quoits, ping pong equipment, etc., which Smith felt quite salable if he could attract enough younger customers.

Therefore, he got in touch with Marshall, and asked whether it would be possible for him to turn over his entire stock of used records.

The hardware store now advertises aggressively "1000 Used Records in Stock." Although the number, of course, seldom achieves that amount, there are usually several hundred in the store, displayed in stacks of 50 or 60 records wherever there is clear space on the counter and identified by a sign. Smith's son, himself a rabid record fan, has installed a record player, so that customers may test out particular tunes before buying.

Under the reciprocal agreement, the hardware dealer pays the operator 8c each for the used records and retails them out in his store at 15c for run-of-the-mill recordings. He sells the better discs at 25c.

Solotone Reports Big Interest in Latin America

LOS ANGELES, CAL.—F. E. Wilson, president of the Solotone Corp., this city, on his return to this office from a distributor "good will" tour thruout the southwest and midwest, including stops at Houston and Galveston, Tex., Oklahoma City, Kansas City, Lincoln and Omaha, Neb. and Sioux City, Ia., reported that he found his desk flooded with inquiries from many Latin American countries asking for complete details regarding the new Solotone timed music system.

Among the countries represented were: Mexico, Puerto Rico, and over a dozen other Central and South American countries.

Newspaper Prints News for Pinball Ops

ASHLAND, KY. — The "Independent", local newspaper, is printing news for pinball ops.

In its issue of June 26 this paper ran a special "Notice" to pinball machine operators wherein its stated: "July 9, 1946, the City Council passed an ordinance providing a License for coin operated machines and devices which do not pay or return any reward or prize, or anything of value, and are solely operated for pleasure, shall be subject to a License of $10 per year.

"This is the law", the item continues, "and has been in force since July 12, and to avoid penalty, you must secure your license on or before August 5. See the City Clerk, Room 301, City Building."

Fined for Insulting Bar Owner via Wired Music

TOLEDO, O.—Two brothers, Harry E. and Albert Mitchell of this city, were fined in Municipal Court for annoying and insulting a tavern owner here via a wired telephone music system.

The brothers are reported to have ordered the wired music gal from a tavern to "dedicate" records to another tavern on the same circuit owned by Albert Suffety, which were threats and insulting remarks.

42 Juke and Pin Permits Bring in $1,050

BELLAIRE, O.—The license department here reported that it has received 42 permits representing a sum of $1,050. This is on the new coin machine licensing ordinance just passed here.

Observers here stated that this city would have received much more revenue if it had not inserted a clause in the new ordinance limiting the location to one of each type machine.

Investigations are first made on all permits. Issuance of 28 permits for juke boxes were registered and applications for 13 pinball machines were turned over to the police here for investigation of the locations.

Prior to issuing a permit it is necessary for the police to check the location.

Happy Birthday

JOHN A. FITZGIBBONS

NEW YORK—Happy birthday greetings are due to John A. Fitzgibbons of Jafco, Inc., this city, on Tuesday, August 13.

Jack is one of the real "old-timers" in the coinbiz. He celebrated his silver anniversary in the coin machine industry many, many years ago.

NOTICE! NOTICE!

It pays to check every ad that appears in The Cash Box. This is the time to BUY the equipment you need to fill open locations.

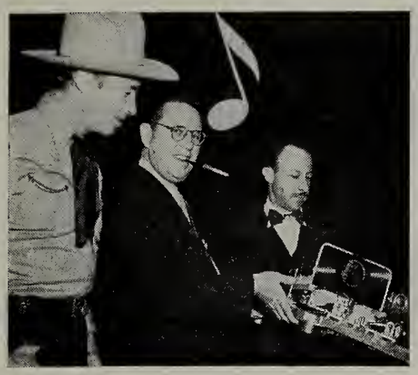
Tilts Marathon Mechanism



CHICAGO — Eddie Dean, Victory record artist and star of Republic Studios, is intrigued with DeWitt (Doc) Eaton's tilting of the AMI record playing mechanism.

"Doc" Eaton, who is Vice-President and General Sales Manager of AMI Incorporated, stated that so many comments, questions, and wonderment were expresed by *The Cash Box* readers regarding the record playing marathon of H. H. Vanderzee, Vice-President and Chief Engineer, that he submits this picture as evidence of his tilting the mechanism to see if it could be stopped.

Movie Goers Like New Popcorn Vender

SHEFFIELD, PA. — The "Observer", local newspaper, reports that those attending the "Utopian" movie theatre in this city, "enjoyed an added feature in a new popcorn machine installed by manager Harry Baldensperger."

The newspaper also reported; "The popcorn machine installed at the movie theatre here is fully automatic and is the Viking make of stainless steel construction."

American Legion Sees Fight Over Repeal of Wisconsin's Anti-Slot Law

RACINE, WIS. — With the Wisconsin department of the American Legion meeting here this past week (Aug. 1 to 5) a fight was predicted over asking the Legion to step in and help repeal the anti-gambling laws passed here last winter.

The third district conference of the Legion, held recently at Stoughton, went on record to wipe off the books the anti-slot machine laws. A resolution to carry out that purpose has been passed on to the interim resolution committee of the state Legion.

That committee, as a matter of routine, has assigned the resolution to the convention resolutions committee. It stated that since a matter of Legion policy is involved, subsequent action may be necessary by the convention legislative committee.

The resolution to kill the state anti-gambling law is therefore expected to receive some opposition. Prior to the passage of Chapter 374 making slot machines illegal, numerous Legion posts operated slots. Revenues from the slots helped posts to purchase and maintain clubhouses.

So far as is known the desirability of permitting slots has never come up before the state convention.

Press Gives Good Publicity to Stamp Venders

CHARLESTON, W. VA. — With the fact that the U. S. Postoffice Dept. is soon expected to place stamp venders of its own around the country, approximately 80,000 of them, the fact that the "Mail", local newspaper of this city, gave an operator who has already placed 80 of the machines on outsides of buildings here a good publicity story will prove of interest

The newspaper reported that the stamp venders, "Provide a convenience to persons at times when stores and buildings and the post offices are closed. The machines are placed at strategic spots thruout the city."

The paper then goes on to list many of the most important locations where these stamp venders can be found.

Asks City for Jukes in All High School Gyms

WHITE PLAINS, N. Y.—"Spencer", who writes the column, "Between You And Me" in the Herald, local newspaper here, pleads with the city fathers to set up recreation rooms for the teen agers here.

As the last weeks of vacation wane, he reports, the teeners are telling him that they have no place for frolic.

He urges that the city arrange for recreation spots in all the high schools here and that all the gyms in these schools be equipped with juke boxes.

He writes, "How about asking the local Recreation Department to supervise a series of teen-age juke box get-togethers in several high school gyms?"

Movie Stars Like Slots

HOLLYWOOD, CALIF. — Frederic March and Dana Andrews, according to reports, seem to have started a new slot vogue here.

In one scene for, "The Best Years Of Our Lives" there was a need for an authentic slot machine.

The prop man went out and secured one.

Both Andrews and March made such good use of the slot, between takes, that the owner of the machine is reported to be soliciting all the major studios here seeking to place slots to help the stars while away the long waits between takes.

Both March and Andrews are reported to have become very proficient at pulling the handle to obtain the best winners.

Dear Mr. Operator:

Dave's tickled silly (especially silly) by your wonderful response to his mail order auction. Here are 107 more pieces of equipment from which you can choose. Make your bid . . . send in a deposit . . . and if it's all kopacetic you'll receive the machine immediately.

Tax Business Good

NEW YORK—Reports from cities all over the nation are to the effect that the "tax business is good" as far as returns already in from coin machine firms who have been paying Uncle Sam's various taxes on slots, alleys, jukes and pin games.

For example, from Johnstown, Pa., Ronald F. McCormick, head of the Internal Revenue Office there said that he could not estimate the total volume of business, but reported it as "good".

As far as Minnesota is concerned (as reported in this past week's issue of *The Cash Box*) returns were rather surprising with over 5,000 slots and more than 10,000 pin games buying tax stamps.

From California to Maine—Uncle Sam's tax collectors report the total volume of business being "very good".

Complete returns won't be in for sometime yet to come. The results, it is generally believed, may prove very surprising to the industry.

Many leading coinmen claim that there are more machines operating now than at anytime during the war-time period—tho not as yet equal to the pre-war era.

It is believed among coinmen that if machines start rolling off production lines this late Fall, as a great many feel they will, that by the end of the year the total of equipment on location will equal, if not exceed, what was being operated around the time the war started in '41.

At the same time many are also of the belief that by mid '47 there will be more machines in operation than at any time in the history of the industry and that juke boxes will lead in total volume.

Too Much Gossip

NEW YORK—One very well known coinman (who has asked us to withhold his name) claims, "There's too much gossip in this business."

He explains this further by stating that, "Like in all industries, there must be some gossip prevalent for that's what helps to make any industry an industry."

"But',, he says in explanation, "there are a lot of guys in this business who just shoot off their mouths without any definite facts to back them up and this not only hurts some nice people, many times, but it goes around the circuit and hurts the entire industry."

He goes on further to state, "I wish that you would say something in *The Cash Box* about some of the vicious rumors which men like these leave out for all their like to grab up and spread around.

"Tell them to act like men—and not gossipmongers—and carry on the way that they should—like real business men — not quoting rumors and vicious gossip until they have absolute, definite and official facts to back them up."

(We hope this coinman is satisfied. We note at the end of his statement, "I don't believe you will publish this, but, you always published the truth before. Maybe if you will publish this it will help quiet down a lot of rumors which are absolutely false and this will help everyone in the business." We therefore hope that this well known coinman, after he reads this, will agree that *The Cash Box* will always help to dispel anything which is not of good value to this business.)

United Mfg. Co. Holds Picnic

CHICAGO — United Manufacturing Co. held their annual picnic, this past Sunday, August 4, at Herman's Limits Inn Grove, formerly known as Connor's Grove, located at Devon and Crawford Avenues, this city.

Over 300 employees and their families are reported to have attended. Refreshments, incluring food, drinks, ice cream, soda, watermelon and fruit, as well as a super-abundance of other delicacies were on hand

A juke box supplied music for dancing and those who were inclined to display their dancing ability were able to do so

According to C. B. (Billy) DeSelm, Salesmanager of the firm, "Attendance Monday morning was not up to par, but, we attribute this to the fact that some of the boys played their 'once-a-year' games of soft ball."

All this past week, according to DeSelm, all that the employees have been talking about at the factory was the good time had by all and many incidents have been recalled by all present. In fact, DeSelm says, the boys and girls here are already looking forward to our next annual picnic—next year. "But," he says, "some of our soft ball players aren't in the mood yet to talk about another game."

N. J. Paper Attributes Record Sales Boom to Juke Boxes

NEWARK, N. J. — Featuring the above picture on three columns, the Sunday Star-Ledger, this city, (Sunday, August 4), ran one of its longest feature stories regarding the music and record sales boom being enjoyed by the leading music stores here.

The writer told of the fact that the young "jitterbug" juke box players were creating demand for the "pop" records in all the stores in this area and that juke boxes generally were contributing to the great demand for all types of music and records.

The writer also reported that many youngsters had taken to music by listening to great artists over the juke boxes and that sales of various musical instruments were hitting a new high mark because of this thru-out this state.

The above picture of an old Wurlitzer 616 on location with two youngsters playing it was the basis for much of the story.

The appearance of this feature story here was a coincidence in the fact that the New York Sunday News (as reported on Page 38, this issue of *The Cash Box*) also ran a big story regarding juke boxes and their effect on record sales on this same date.

Three Held in Theft of Firemen's Slot

EBENSBURG, PA.—Three men were held on a charge of larceny resulting from the theft of a slot machine on June 28 from the Carrolltown Firemen's Club.

The three, who were arrested by the police here, are Richard P. Gray, Jim Gray and Wm. R. Handlin.

State police reported that the trio walked into the club and while the steward was in the kitchen preparing food walked out with the slot. They then broke it open and threw the machine in a dam near Carrolltown.

Girl's Club Buys Juke

BETHLEHEM, PA.—Members of the Girl's Club of this city have just raised $4,500 of the $13,500 estimated necessary to continue a vigorous and successful program form June '46 to July '47. One of the very first things the Girl's Club did with the money was to buy a juke box

Will Tell So. Jersey Music Ops About New Commish Basis

PHILADELPHIA, PA.—Ernie Brown of this city, one of the most progressive music ops, is preparing to present to the South Jersey Music Operators Association a complete file of *The Cash Box* editorials and other data regarding the 70%-30% commission basis for juke box coinmen.

Brown is of the belief that every music machine operator in the southern New Jersey area must change his present 50%/50% commission basis in order to survive increased overhead and machine prices.

He will bring this up to the next meeting of the organization and will ask that all members vote to agree on the new 70% commission schedule so that they will be earning more profit than they are at present

The MGA of northern New Jersey (Music Guild of America) have already voted a minimum 75%/25% commission basis must go into effect by September 1.

Original Words of Songs in Juke Boxes Only

NEW YORK — John Crosby in his column, "Radio in Review" for the Herald-Tribune here reported this week (August 5) that, "If you want to hear the original words of many musical comedy hit tunes you'll have to go to the show or catch them on a juke box."

He explains, "That popular song from 'Annie Get Your Gun'—'Doin' What Comes Natur'lly' or 'Doin' What Comes Natch' as it's kown in bobbysox circles—went thru extensive alterations for the radio."

Crasbuy writes, "The line 'You don't have to go to a private school not to turn up your bustle to a stubborn mule' became 'Not to pick up a penny from a stubborn mule.' That eliminated any reference to a woman's posterior which, like hell, is not recognized by the broadcasters."

Al Silberman Reports Wolf Offices Ready to Feature Cosmo Line

AL. A. SILRERMAN

LOS ANGELES—Al. A. Silberman, General Manager of the M. S. Distributing Co., who has just returned to the firm's headquarters here after a trip thruout the West Coast covering the Wolf offices in San Francisco, Portland and Seattle, reported that preparations are now completed to start the sale of Cosmo Records to the juke box ops as well as to record jobbers, record retailers, department and other outlets featuring records.

Silberman reports, "We are making preparations for a very elaborate display and putting in the necessary modern fixtures together with banners, streamers, life size cut outs of the artists, and all other paraphernalia necessary to properly exploit the Cosmo Record line.

"After a carfeul survey of the record situation," Silberman continues, "we believe that a tremendous volume can be worked up on this item. Furthermore, we confidentially anticipate that the new Record Division of the M. S. Wolf Distributing Co. will soon be built into a substantial part of our general business and we look forward eagerly to getting all of our offices ready on or about August 15.

"Since we have announced the acquisition of the Cosmo Record line", Silberman says, " have had many inquiries from operators in all parts of the territory we cover and we are anxious to serve them with Cosmo products at the earliest possible moment. We will have a sales promotion man stay in each office for approximately one week, during which time nothing will be left undone to exploit the Cosmo line to the fullest extent."

Silberman is also taking this opportunity to thank all his friends everywhere in the country who phoned, wired and wrote to him congratulating him on his new position with the M. S. Wolf Distributing Company.

Woman's Column Goes All Out for Venders

SEATTLE, WASH.—"The Woman's Way", popular woman's column published in the Star, local newspaper here, features "Things to come," entirely devoted to vending machines.

The item reads, "Curious about what the world of tomorrow will hold? Well, one thing destined to pop up on the scene in greater prominence is the vending machine. Manufacturers say that we'll be getting everything from hot dogs to razor blades and aspirin tablets via the nickel-in-the-slot technique.

"In fact", this item continues, "the developments they're now making in the field of vending machines may eliminate the need for a great many present employees. Plunk down your coin in the slot, and you'll be able to get your ticket for a movie, have your hat blocked, send a telegram or buy a railroad ticket.

"And that isn't all", the writer goes on to say, "predictions are that in a little while your neighborhood filling stations may have, for an all-night attendant, a mechanical monster who will dump five gallons of gas in the family car for the required amount of money.

"Frozen foods are also designed to come straight from the slot machine, and when your aunt, uncles and cousins from Kalamazoo suddenly descend upon you, there'll be no dilemma at all. You'll merely dispatch Junior to the nearest slot machine, with a handful of nickels in his fist. In five minutes he'll be back with pot roast and gravy, French fried potatoes, carrots and peas, a lettuce and tomato salad and strawberry ice cream. Ten minutes more in the kitchen and dinner will be ready for the table. How does that sound in the way of 'things to come'?"

Columnist Suggests Improving R. R. Ticket Vender

NEW YORK—H. I. Phillips, whose column "The Sun Dial", appears in the New York Sun here, writes, "The New York Central and L. I. railroads are trying out a machine that sells railroad tickets. A traveler puts in the necessary coins, turns a wheel, and out comes his ticket. We think it could be improved and made more popular if in addition to providing railroad passage it told your fortune and gave you a chance in a $5,000 lottery."

Liggett & Myers Rescind Ciggie Price Rise

NEW YORK—Tho cigarette vending machine ops refused to increase the price in their machines when the Liggett & Myers Tobacco Co. announced an increase in the wholesale price of Chesterfields, Fatimas and Piedmonts to $7.31 per thousand from the former price of $7.09 per thousand, their action was proved logical when, this past week, the firm announced that they had rescinded the price increase of 22c per thousand.

Other cigarette manufacturers refused to increase their price, holding to the $7.09 level in effect since April 25. (All manufacturers had increased their price by 25c per thousand on April 25.)

Since the other manufacturers refused to raise their price, Liggett & Myers Tobacco Co., it is reported, then decided to rescind their order increasing their price.

Coinmen Turn to Distributing Records

NEW YORK—Reports from leading record manufacturers here and on the West Coast are to the effect that more and more coin machine distributors have turned to distributing leading lines of records.

These record firms state that, "The average coin machine distributor is proving himself one of the best record sellers. Not only does he have a close connection with the juke box operators in his territory, but, he goes even further, for he knows all the business houses in his area and therefore is in position to instantly get his line of records into all the retail outlets."

From coast to coast, these manufacturers state, the coin machine distributors have fallen right in with the record business and are building these divisions into one of the most enterprising of their holdings.

"In some cases", one noted record maker stated, "the coin machine distributor has proven himself a much better seller of records than old line record wholesalers. He has a new outlook on the business. His promotional efforts have more zip. He is the man we are turning to today to get our records over the top for us

Also, according to reports, with the home and juke box record markets growing by leaps and bounds, there is no doubt that these coin machine distribs who have taken on record lines will find themselves in an enviable and profitable position within a few months when the new radio-phono combination sets hit the market and when more of the smaller phonos begin to arrive.

Hits the Jackpot on Scale

SAN BERNARDINO, CAL. — Police were standing guard over 2,000 pennies this past week after Jimmy McRill, 14 years old, hit the jackpot while patronizing a weighing machine at the Pacific Electric station here.

The boy reported that when he inserted his penny in the scale, "the machine seemed to explode and pennies showered all over the floor."

Policeman John J. McGarty dispatched to investigate, following Jimmy's excited arrival at headquarters, gathered the pennies into his cap, but there were so many it overflowed.

NEW DESCRIPTION FOR SLOT MACHINE

SYRACUSE, N. Y. — Joe Beamish, who writes the column, "City Life" for the Herald-Journal in this city wrote the following new description for a slot machine, "Municipal airport operators are wondering who took off with the slot machine. (A slot machine, Aunt Minnie, is a lowwing job that takes everyone for a ride.")

Brooklyn Kids Dance on Street to Juke Box Music

BROOKLYN, N. Y.—Kids are reported to be dancing on the sidewalks of Coney Island, here, to the music provided by juke boxes.

Expects New Bldg. to be Ready Soon

ELKY RAY

LOS ANGELES, CAL.—Elky Ray of the Gold Coast Coin Machine Exchange, this city, reported this past week that he expects his new building on West Pico Blvd., here, to be ready within two to four weeks.

Elky has spent many aggravating days with workmen who are now attempting to complete the new building and is at last beginning to smile, according to reports.

He stated, "When our new building is ready, everyone will agree that it was worthwhile waiting for. We are going to have one of the most outstanding displays of Gottlieb products in the nation.

"We want every operator", Elky says, "to come on over when we announce our official opening and get acquainted with our new showrooms, offices, repair and renovation department and many other new and surprising features we will have in this one building."

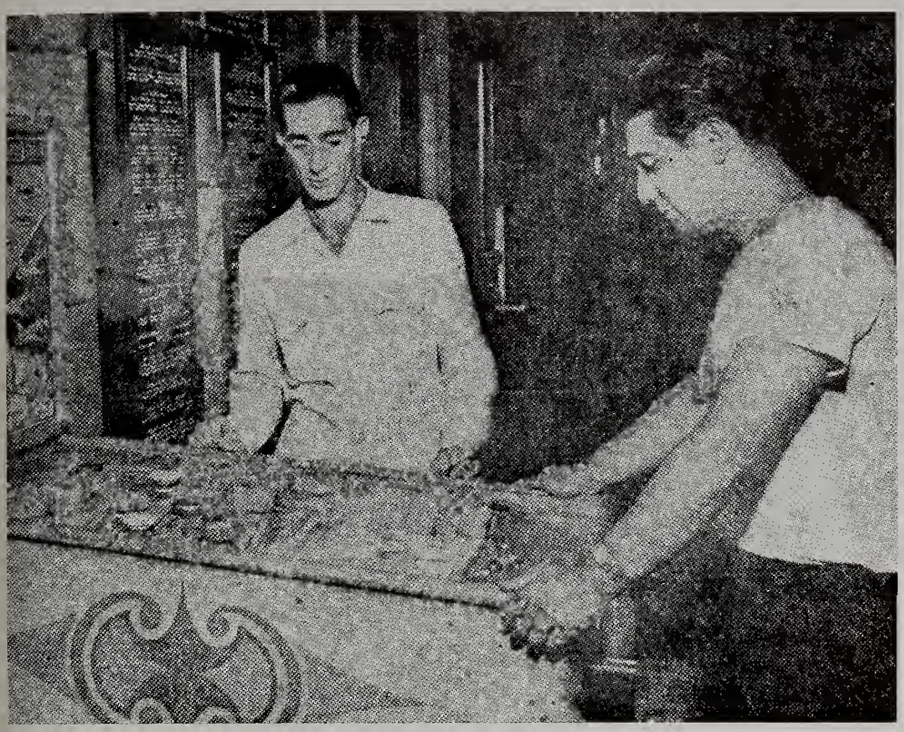
Cuban Ball Players Like to Play Pinball



HAVANA, CUBA—Cuban ball players, (left to right) Jose Quevedo and Felipe Jiminez, whenever they get a few minutes spare time with the team here, spent it playing the pinball machine in the lobby of their hotel. Pinball, it is reported, is one of the outstanding recreations of the ball players.

Coin Operated Washers for Vets' Homes

LANSING, MICH—One of the outstanding features of the 14 converted barracks buildings, containing a total of 51 temporary housing units, in this city's 75 unit veterans' temporary housing development on West Saginaw Street will be the fact that these houses will feature coin operated washing machines.

(Sometime ago *The Cash Box* predicted that one of the best sales items in the trade would be coin operated washing machines direct to homes. These units are placed right on the washers and give the householder an opportunity to pay for them as they use them. The coin operated "Launderettes" which are opening all over the country are actually popularizing the use of coin operated washing machines and neighborhoods where these stores prosper will find salesmen featuring coin operated washers direct calling there to make sales.)

THOUGHT PARK METER WAS A SLOT

MEMPHIS, TENN.—According to a reporter of the Press-Scimitar here, "I saw a little negro boy who had a nickel and was trying to find the place to put it in a parking meter. I watched the boy for a few minutes and then went to help.

"I showed the boy the meter slot, he put his nickel in and stood looking at the meter intently.

"He then turned to me and said, 'I didn't get anything, did I'?"

THRU THE COIN CHUTE

CHICAGO CHATTER

Well, at last and at last, it seems that the "dog days" are nearing their end and many of the coinmen thruout the city are once again getting "on the ball" and rushing in to get business started in a big way. For a while there it seemed like a lot of our better coinmen in the Windy City had just folded and were going to allow things to take their course. But, we somehow felt that the boys would snap out of it and get back into speedy action—which the end of this past week seemed to indicate. And now that the men are getting going again some of the ops thruout the country are going to get some really grand buys which will prove more than worthwhile to them. This is the time to buy to fill in all open locations in any territory—which means that much less competition for the smart operators.

* * *

Abco Novelty Co. moved to larger quarters at 823 W. Randolph St. where they will occupy about 6,000 square feet of space. This firm is really branching out and is gaining much good attention from the trade . . . Dave Stern of East Coast Sales & Distrib. Co., Elizabeth, N. J., in town (probably enjoying his birthday here) and seeing all the leading manufacturers, especially over at the big Rock-Ola plant, to get as much equipment as he possibly can for his territory . . . Leo Weinberger of Southern Automatic Amuse. Co., Louisville, also in town this past week. Leo looks like he's all set for one of the best Fall seasons in the history of his firm . . . Al Corday of Sherman, Ill. came to town to do some buying — and this time, we're sure, he wasn't disappointed one bit for there are some really grand buys here.

* * *
* * *

Max Goldstein of Forest Park, Ill., drove in and looked around to see if there were some people around who could give him what he needed. Looks like he got what he wanted, from what we hear . . . Frank Burnat of Gary, Ind. drove in to see some of the distribs here and talked things over with them . . . J. R. Marquissee of Fargo, N. D. came to town to hear for himself when he could expect to be loaded down with a couple of carloads of the new machines . . . Al Hanson of New Orleans calling around at the various factories and seeking for new equipment . . . Harry Miele of Williamsport Amusement Co., Williamsport, Pa. in town this past week and listening to all and sundry while seeing if he could buy what he needed for his firm. We hope that Harry got what he came after.

* * *

Harry Wiczer and E. (English) Nathan of the Harry Marcus Co. off to Los Angeles where they plan to set up one of the most outstanding branch offices in the nation. The boys are doing a grand business on the West Coast and to make things easier for the coinmen there, will stock the parts they need right in their own offices — saving the men much time, effort and labor to get them . . . Over at United Mfg. Co. they've still talking about that grand picnic the firm gave for its employees—and smilingly happy — even between the creaks and groans of some of the older boys who gave 'way to playing soft ball this one time during the year . . . Lawrence Daurora of Schenley Vending Co., Pittsburgh, seen over in Billy DeSelm's offices at United talking things over and asking for more of those great United games.

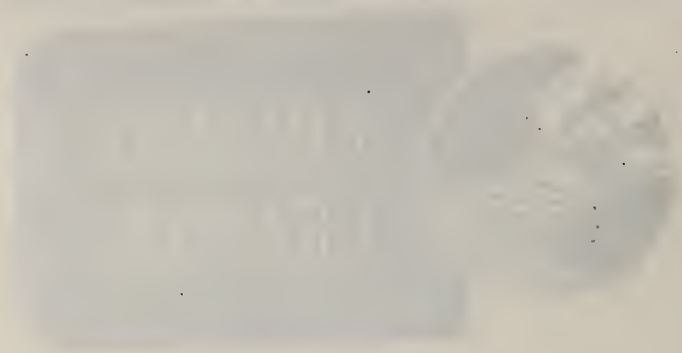
* * *

Johnny Mills, handsome son of Herb Mills, planning to attend the University of Arizona in Tucson this fall and will pilot his own plane when he goes . . . Rollo Smith of Buckley Mfg. Co. off on a two weeks vacation to forget all about business. He has a summer cottage in the Fox River Valley at McHenry, Ill. . . . Gerry Haley (also of Buckley) just returned from a motor trip thru the Rockies and is feeling tops—raring to go—and eager to see those coinmen calling around once again . . . By the way, Pat Buckley cables in to his factory here (from somewhere in Italy) that he intends to take the boat about the middle of August to return to these good old United States. Pat sure has been around, starting in England, then going to France and some of the other countries and now in Italy.

Perc Smith of Exhibit Supply Co. (who is the brother of Rollo Smith of Buckley) also vacationing—at Lake Geneva, Wis.—and no nicer place in the world for a grand rest . . . Sol Gottlieb, we hear, has that itchy wanderlust again, and this time is off for a trip thruout the South to visit with many of the firm's friends down there . . . Alvin Gottlieb, eldest son of Dave Gottlieb, has just become engaged (my, oh my, how they do grow up —seems only a few years ago when the writer had to coax young Alvin to smile for the photog at one of the coin shows before the war) . . . Joe Munves will soon be all set to go at his new downtown factory —168 E. Grand Ave. Mrs. Joe Munves and Mrs. Perry Meyers are here visiting with their husbands . . . Ben Lutske, salesmanager for Daval, down in Texas calling on distribs there . . . Lew Terry of Ammco off to Florida on business—and should be ready with a very important announcement soon. He has already taken additional space to make way for expansion plans . . . Art Weinand of Rock-Ola Mfg. Corp. getting everything on his desk in tip-top shape prior to taking a well earned vacation.

Harry Salat (Bell Products) and family off to California in their new Plymouth — planning to spend a month, combining business with pleasure.

Vince Murphy, Sales Manager, Monarch C. M. Ex.—back from his vacation—and was pleasantly surprised to find the remodeling of the building all completed and now with plenty new games on the floor of their spacious showrooms—Vince is busier than a guy just returning to school for Fall Semester . . . Al Stern (World-Wide Distributors) is back from his trip to Kansas City and Omaha where he is opening up other World-Wide branches. Al has plenty of plans under way, news of which will be forthcoming . . . Never a day passes but what the Jennings plant are crowded with visitors. The day we called Phil Burgesson, Jennings rep. from Minneapolis, Minn., Kenny Glenn, Gen. Mgr. LaBeau Novelty Co., St. Paul, Minn. and F. Burgesson, Jennings Distributor for Northern Ill. were conflabing with J. R. Bacon, Vice Pres. O. D. Jennings & Co.



THRU THE COIN CHUTE

EASTERN FLASHES

The Automatic Phonograph Operators Association is really going to go to town with their 1946 Banquet. For some years now, the party was held at the Starlight Room of the Waldorf, but the space was inadequate to hold the crowd. Now for 1946, the banquet is scheduled for the Grand Ball Room. There'll be plenty of room for everyone. Many surprises are in store for the guests, and Barney Schlang is lining up a gang of recording artists for their show.

* * *

Dave Stern, Seacoast Distributors, busy in New York City with music ops, then rushed out on them for a trip to Chicago. Jules Mayers, from Newark, N. J., takes charge while Dave is away, helped out considerably by the charming Ann Leon, office manager . . . Hymie Rosenberg, H. Rosenberg Co., out of town for the week. Mac Perlman demonstrating the Challenger phono, and handing out free drinks from the Challenger drink machine . . . Al Bloom, Speedway Products, lining up a great representation of distributors for his "Talking Gold" plastic phono cloth.

* * *

There'll be plenty of out-of-town visitors to our city next week. According to reports at this time the following coinmen will be here: Frank McNichols of Cleveland; Irv Sandler of Des Moines; Milt Cohen of Cincinnati; Lou Koren of Chicago; Irv Blumenfeld and Harry Hoffman of Baltimore; Rudy Greenbaum of Kansas City; Ted Bush of Minneapolis; Al Bergman of Buffalo; and Del Veatch of St. Louis.

* * *

Barney (Shugy) Sugerman of Runyon Sales Co., returns from a week-end trip to Canada, and immediately flies down to Texas . . . Now that the outside of the Mike Munves' building is completely done over with glass brick, work has started on the inside. Mike tells us that his artist brother-in-law Warner Soned is painting an outstanding coin machine mural which will be placed in Mike's private office . . . Irv Morris, Active Amusement Machines Co. (Newark office) spends a day in the city, seeing the boys on Tenth Avenue . . . Nat Cohn, Modern Music Sales Corp., returns from a vacation trip, and immediately flies out to Detroit to see the Vogue record people. Nat doing a sensational selling job for this picture record.

* * *

George Ponser and Irving Kaye, Amusement Enterprises, Inc., getting ready to show their customers a grand time at their showing, August 15 to 18 . . . Irv Blumenfeld and Harry Hoffman of General Vending Sales Corp., Baltimore, Md. in town for one day and rush back to their office. Irv tells us their new building is almost complete—maybe another month and you'll be getting an invitation to their opening party . . . Mack Postel of Chicago in town, visiting with J. Breidt of U-Need-A Vendors and other coinmen. Mack looks for some big things very soon . . . This is really news! A new apartment was found by a recently married couple. Ruth Nussbaum of the Automatic Phonograph Operators Assn. finally connected after looking for many months.

* * *

Rudy Lietgeb of Cliffside Park, N. J. whispers he'll have some interesting news to tell us soon . . . Julius A. Levy, regional office manager for Arthur H. DuGrenier, covering his territory of New York and New Jersey like a blanket. He's so busy, he can't even take off a few days to catch some mountain air . . . Bill Blumenthal of Tri-State Sales and Distributing Co., talks about a trip thru Canada this summer, but so far has only been able to grab a few week-ends at the seashore . . . Jack Fitzgibbons, Jafco, Inc., wearing a great big smile these days, looking ahead with eagerness when he'll be able to make his tremendous announcement to the trade . . . Apollo's record "The Very Thought Of You" by Luis Russell Orchetra, and a sensational unknown singer rumbling the foundations of all Harlem.

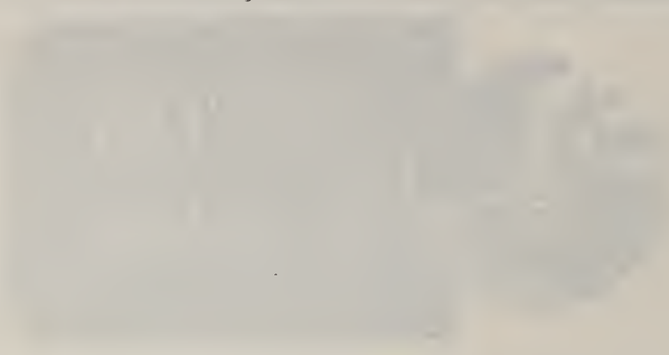
* * *

Leo Knebel, Manhattan Phonograph Co. (Aireon Distributors) getting steady deliveries of their phono now, and ops grab them off his floor as fast as they come in . . . H. F. (Denny) Dennison, President of Personal Music Corp. a recent visitor to Morris Hankin and Jack Lovelady of H. & L. Distributors, Atlanta, Ga., and raves about the wonderful offices of this firm . . . Coinmen are chasing Teddy Blatt asking that he reserve space for them in building he's getting ready on coinrow . . . Dave Lowy tells us about his new plans, which he'll break to the trade in a few weeks . . . Wonder how Abe Green is doing these days on the golf course—under 200 yet?

* * *

Those letters being sent out to all locations by MGA (Music Guild of America) Newark, N. J. attracting much attention of the phono ops and all of them complimenting LeRoy Stein, executive director of MGA, for his grand work making these sound so good to the storekeepers. The MGA boys will be on 75%-25% commish basis by September 1 . . . Looks like the Hotel New Yorker (which was, once upon a time, the hangout of the coinmen who came to N. Y.) will once again resume its status as the coin machine hotel this coming week. And there's going to be a grand party run there for some of the coinmen, too . . . Grandpappy Jack Mitnick can't wait to get home these nights to gang up and play around with his grandson. Just ask Jack why he calls him, "a real man" . . . Haven't seen Eddie Smith of Emby around these past few weeks. Is he on vacation or too busy? . . . We hear that there's a new music system over in Jersey which will take the country by storm when it's announced.

Manny Ehrenfeld, Telematic, Inc., New Jersey, is telling music operators to look for a revolutionary announcement from him in a few weeks. Manny will bring out an instrument that has been receiving a trial thruout the New Jersey area, and he claims he has sold out every city in the state except one.



THRU THE COIN CHUTE

CALIFORNIA CLIPPINGS

Bill Wolf is back home again after a stay in San Francisco thru this past week and taking over the offices there while Chet Garton took his annual vacation. The carpenters are to start remodeling the upper floor of the Wolf building here for the newly established Record Sales Division. The firm handles the distribution of Cosmo Records. Al Silberman, general manager of M. S. Wolf Distributing Co., has just acquired a beautiful home in the Santa Monica district and is sporting a new Oldsmobile to boot.

Jack Gutshall has just completed setting up a record sales department in his San Diego offices and claims the line of independent record labels he handles are the finest in the world. Jack is currently sponsoring the vivacious Kay Starr of Lamplighter Records as the new Queen of the Juke Boxes. Jack Allison, general manager for Gutshall is a very versatile person. He handles the firm's auditing department, looks after record sales, and, if he finds any spare time, waits on the many Aireon buyers in the office seeking new equipment.

It looks like Lane Jasper, the well known coin man and inventor of various and sundry games, has up and done it again. Although it's on the hush hush list, we hear it pertains to music. We should be hearing about this bit of mechanism soon . . . Jimmy Rutter had been having a bit of trouble getting glass for his new conversion of the "Thorobred" to "Hollywood," but he tells us that the problem is whipped and he's now all set to handle any number of the conversions. Jimmy must be losing that wanderlust as he has been home now a little over a week and no sign of another long journey.

Len Micon has just returned from a quick business trip to San Francisco and is hoping for a shipment of new machines soon. He claims, "It's murder to be forced to tell the many ops coming into our offices each day about the delay in shipments and the price increase of machines." Len hopes to hear about a shipment of the new Packard "Hideaway" in the very near future . . . Sol Bihari of Modern Records is planning a cross country jaunt to call on the firm's distributors and to appoint a number of new ones in territory not already covered. The plattery is a shining example of family unity as the firm is composed of three brothers and three sisters, and they stick closer to one another then a stamp to an envelope.

Ran into Johnny Moore of the famous musical combo, Johnny Moore's Three Blazers; Johnny told us that he has found *The Cash Box* everywhere he went on a recent vaudeville tour and added that, "It is a terrific medium for selling records as I discovered in talking to phono ops around the country." Nice words, Johnny . . . Leon Rene of Exclusive Records is in the process of recording a number of new hit tunes which he feels will be sensational and which will be released soon.

H. M. DeGovia of Dee's Service has been appointed to distribute the new Wayne "Automatic Record Volume Equalizer" . . . Nels Nelson handling the distribution of the new bowling game, "Strikes and Spares" reports a big demand for it. In addition, Nels has been taking many orders for the new Phonette the "measured music" box . . . W. Merle Connell of Quality Pictures has run into a new type of location for Panorams. More info on this type of operation is forthcoming . . . Bud Parr of Solotone has recently returned from a cross country trip appointing new distributors, and reports that the 5 and 10 cent feature of the new box is meeting with phenomenal success and has increased the take of ops by as much as 50%.

Leo Mesner, president of Aladdin Records, is known as the personality man of record row. Gifted with a winning smile and very likable personality, Leo revealed that prior to his entry into the record business he taught school for over 19 years . . . Milo Herring recently moved into the E. T. Mape Distributing Co. and has taken over the refinishing department. Milo assures all his old customers and many friends the same good quality work with no increase in former prices . . . Ray Powers of E. T. Mape has just recently received a large shipment of late model phonos from the northern part of the state and is now in the process of reconditioning this equipment for resale to ops.

Paul Laymon has been displaying the new Bally "Draw Bell" console and has taken a large number of orders for the new machine. He promises early delivery on all orders placed now . . . John Rough of Phonofilm Productions, distributing 16 M.M. coin film for Panoram and Solovue ops, has his newest series of these films now ready for delivery . . . Bill Happel is anxiously awaiting the completion of his new building on Pico. The workman have been working steadily and are making good headway.

Danny Jackson of Automatic Games was breathing a little easier after permission was granted to finish work on his new building. Danny expects to have his place all set within a week or two . . . Elky Ray of the Gold Coast Coin Machine Exchange fervently hopes to be able to occupy his new building on Pico within the next three weeks. After one delay following another, work is now progressing satisfactorily and should be about finished within a few weeks unless, and with our tongue in our cheek we say, "unless," they run into more unforseen trouble.

Len Kelly of K & M Distributors tells us that the firm's new offices in Dallas are doing a great job selling discs to ops and retail stores in that territory. Fred Myers is handling affairs down Dallas way . . . Otis Rene of Excelsior Records is setting up a new sales organization for the firm's platters and plans on covering the land with a crew of super salesmen to get the discs out . . . Max Wiczer of the Harry Marcus Co., Chicago, is in town and has selected an office and showroom for the firm on Pico Blvd. He'll announce the opening date soon.

THRU THE COIN CHUTE

MINNEAPOLIS

The Resorters Golf Tournament at Alexandria opened this past week and two well known ops from that territory are among the competitors. Eddie Clavin of Alexandria and Bob Collins of Morris. Swing those mashies! . . . Walter Smith is the new owner of a pair of routes at Red Wing (Minn.). Al Frettums sold out to Walter two weeks ago, and is just taking things easy. Walter bought the other one from Curly Van Schaiks. And that makes Walter Smith a pretty good sized operator in them thar parts. Besides, he also has one of the largest Firestone agencies in the territory.

Mr. and Mrs. Emil Sirianni, Eau Claire (Wis.) have been visiting in town for a few days . . . Mr. and Mrs. Charles Bohnen of St. Cloud (Minn.) also among those present here . . . Bush Distributing Company is now in its new quarters and practically all set up for business . . . Bob Westrum of Van Specialty Company in town with his wife for a few days and then returned to his lake home up Ottertail way . . . Emitt Engle of Sioux Falls (S.D.) sold his route to R. G. Swift, doing business under the name, Acme Amusement Company.

Dick Kabot of Dakota (Minn.) is building a new night club . . . Kelly Diedrich of Chaska (Minn.) is quite a visitor to Minneapolis. In town every week . . . Don Hazelwood of Aitken (Minn.) and Bob Cross of Fairmount (Minn.) were recent day-long visitors here . . . Leon Vanasse of the Somerset Electric Company, Somerset (Wis.) is back in business again after his discharge from the Army . . . Fritz Eichinger is the new owner of the J. J. Cook route which was sold two weeks ago to the Mayflower Distributing Company. Fritz is from St. Paul. Just started in the business and doing very nicely.

M. E. Kreuger of Grand Forks (N.D.) favored the city with one of his rare visits. First in two years. He's confined his operating exclusively to scales, having sold out his music, pins and other equipment some time ago . . . Allen Greenstein of the Hy-G Amusement Company is on a trip into South Dakota . . . Dave Ziskin of the Silent Sales Company also traveling on business . . . Garvin Ludwig of Cottonwood (Minn.) and his wife were in town for the day. Jack Lowrie of Lake City in town looking for—airplanes.

ST. LOUIS

Torrential rains brought more nickels into phonographs during the first week in August—as people hustled into the corner tavern and spent the evening playing the discs. St. Louis rainfall hit an all-time high for the past week. Down in Pine Bluff, Mo., Herman Gieselman of Missouri Novelty wept when flood water floated two of his pinball tables away with the roadside restaurant which housed them.

Ed Cotter, West Frankfort, Illinois, operator, visited St. Louis distributing centers last week in search of one-balls. He found two, surprisingly, now on the Cotter routes . . . Forty-three new phonographs of various makes hit the St. Louis distributor's showrooms during the week. "Seems like old times" Bill Betz beamed. Bill has turned over his stock in one day flat.

Among ops who received new phonographs during the last week are: Breen Greer, Du Quoin, Ill.; E. R. Summey, Sullivan, Mo.; and Mike Cobetto of Taylor Springs, Ill. Mike has secured three to date and is chortling over their reception on the routes. "When you show a record play for the first month, it makes the high initial price look a little less catastrophic," Mike said . . . We're only kidding.

Leo Douglas, op who does a bit of Scoutmaster work on the side, is spending his vacation at Chain of Rocks park with fifty scouts as his charges. Leo takes a lot of ribbing, but he's still wearing that Scout uniform . . . More happy owners of new phonographs include Andy McCall of McCall Novelty Company, Bill Sawyer of Real Novelty Company, St. Louis, and Art Schooley, who heads up Schooley Music Company in Granite City, Ill. All three got delivery on the same day . . . A day or so later Freddie Voucher of Festus, Mo., found a new Rockola on his doorstep, as did Hudson-Houser Music Company over in Centralia, Illinois.

What is probably the most unusual stamp vendor location in St. Louis turned up during a visit to the downtown Kresge store. Perched on a column in the middle of a stationery department we saw a three-reel stamp vendor, which has to be charged up with stamps twice a day, so heavy a play does it pull. The dime store sells more stationery, and the vendor hits a new high every day—just a location suggestion, boys.

Ops in St. Louis and vicinity are pleased at the wide variety of new pin games appearing everywhere. Apparently it is the largest choice ever on the market. Many phonograph operators who stuck to the music field religiously for a decade are coming into the pinball field as a result.

PITTSBURGH

American Coin-A-Matic employees are kept on the jump by Sam Strahl, replacing sales floor merchandise that for some reason quickly disappears. Sam is also showing Buckley "Track Lits," which has developed a tremendous interest . . . Nils Peterson from Buckley Mfg. Co. really enjoyed his visit with Sam, especially when he saw for himself that his machines were going like the proverbial hot-cakes.

Larry Daurora, who keeps things humming at Schenley Vending Co., is off to Chicago on a business venture . . . Ben Long of Mulligan Dist. Co. is all enthused over Aireon Service School results. Students from all over their distributing territory are put on their own in tearing down and rebuilding Aireon mechanisms under supervision of Ray Emerson, service dept. mgr. and L. P. Branson, Aireon factory representative.

J. D. Lazar reports that Gottlieb's "Super Liner" pin games are going over big and getting a better play than "Stage Door Canteen.". P.S.: B. D. Lazar is wondering how he can speed-up deliveries on Rockolas . . . John Walsh, the mechanical wizard at Pittsburgh Amusement Co., is busy organizing his service dept. which consists of a complete machine shop manned by two capable assistants . . . Sam Horvitz, the congenial boss of Acme Novelty Co., is enjoying considerable activity and believes the usual summer lull has been broken. Sam says it's about time.

Lou and Meyer Popkins of Pittsburgh Coin Machine are desperate over the short supply of new equipment. It has now reached the stage where they have dispensed with uncrating of machines. They go out as is. Mr. Sheftic of Sheftic Amusement Co., Johnstown, Pa., bought everything he could lay his hands on . . . Toney Nolfi, the Popkin boys' earliest customer, rushed a truck load of machines to his Punxsatawney, Pa. locations . . . Al Dintino, a popular op from Glassport, also purchased a load of merchandise for his new locations.

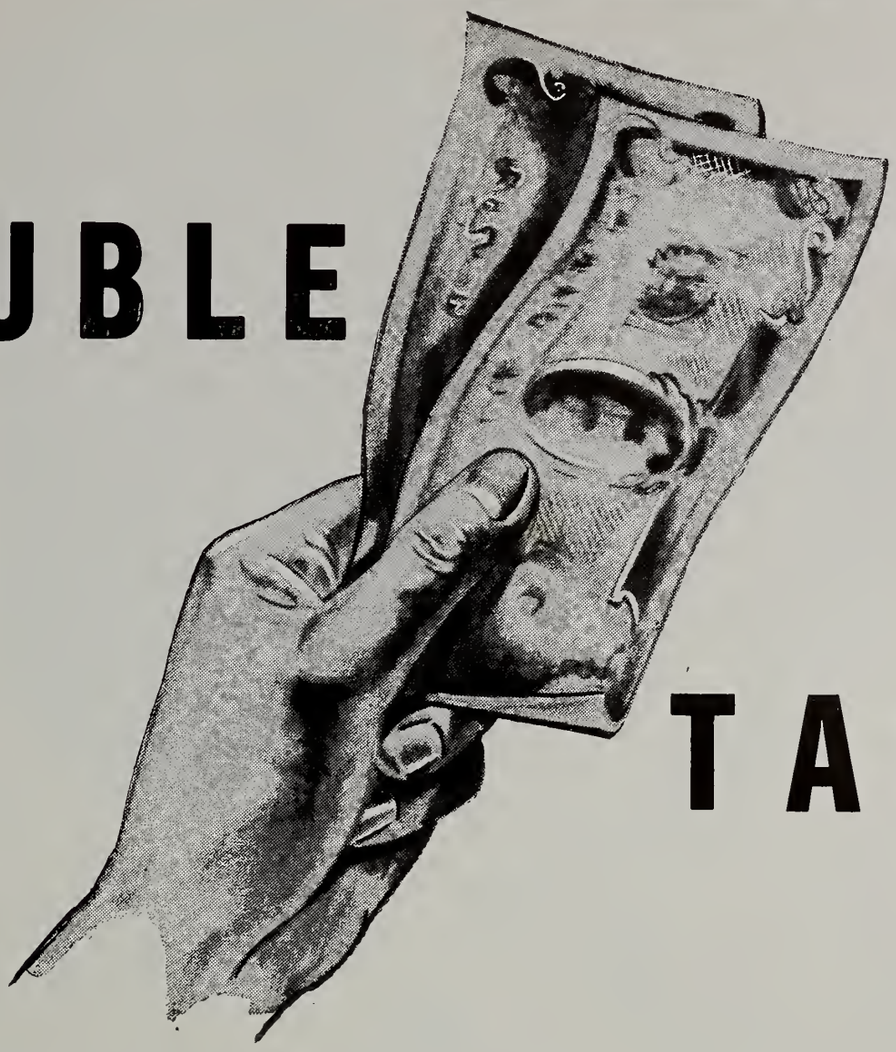
DOUBLE TAKE



First of all, there has never been anything in music merchandising that can compare with the take from Solotone Individual Music Systems. This is because you install many Solotone boxes in each location. Any *one* of these Solotone boxes takes the place of an automatic. From then on you multiply profits.

Secondly, every Solotone box—exclusively—has *two* coin slots—one for nickels and one for dimes. The nickels pay off plenty, but every operator knows that the dimes are the real gravy take. With Solotone this extra take from dimes can be as much as *30% more than the nickels alone.*

You win double with Solotone. Cash in today. Phone or wire us NOW for details.

OLD FAVORITE BELL APPEAL
PLUS NEW HOLD AND DRAW FEATURE

Bally's
DRAW BELL

NICKEL OR QUARTER PLAY

All the flashy come-hither of the old familiar golden bells and bright red cherries! All the excitement and suspense of three spinning reels! *Plus* the new second-spin feature . . . designed to insure extra thrills to the player and extra profits to you! That's Bally's new post-war console . . . DRAW BELL!

Plenty of winners pop up on the first spin . . . insuring steady repeat play. And every miss comes so close to a winner that players can't resist a second spin . . . which results in an extra coin in the cash-box. For example, bars on the outside reels and a cherry in the middle . . . who wouldn't play a second coin to *hold the bars and spin the center reel again?* Practically every non-winner line-up has the "makings" of a winner, and players invariably try the second-coin-second-spin.

QUICKLY CONVERTIBLE . . . PAYOUT OR REPLAY

One unit serves all types of location, because DRAW BELL is quickly convertible from automatic payout to replay . . . and a sensational money-maker either way. Like all post-war Bally products, Bally's DRAW BELL features improved, simplified mechanism . . . easy access for adjustment and routine service . . . sturdy construction to live up to the long-life play appeal.

DRAW BELL consoles on test location are out-earning all other consoles and bells . . . boosting profits in lively locations and bringing slow spots back to life in a hurry. Because good news travels fast, the demand for DRAW BELL already far exceeds production . . . so order today . . . now . . . from your local Bally distributor. *Specify Nickel or Quarter play.*
